Liberty Under Law—Equal Rights—True Industrial Freedom

HUNGARY, IN DIRE NEED, SEEKS AID OF AMERICA.

Deepest Lacks Fuel for Cooking Its Scanty Rations; Relief Kitchens Closed for Lack of Funds.

(BY CABLE—EXCLUSIVE DISPATCH.)
BUDAPEST, Dec. 15.—The headquarters of the American Red Cross here has just received a long message from the Hungarian government detailing the sufferings of the people in that city. A summary of the report follows:

Due to an epidemic of scarlet fever and lack of fuel all Budapest hospitals have been closed since October 15 and there is no hope for their opening in the near future. Due to overcrowding hospitals are obliged to send away children before they are properly cured.

There are being continued to the American relief administration to issue foodstuffs to the people who are often returned without having received any food. There are no beds in the hospitals and a number of deaths have occurred. It is estimated that not more than 100,000 people are being supplied with food. A number of relief kitchens have been closed for lack of funds.

There is a general feeling of despair among the people. The government has no money to pay the salaries of the officials and the army. The people are suffering from lack of food and fuel. The government has no money to pay the salaries of the officials and the army.

GIVE CHILD A CHANCE.

Retain Home Spirit, Harding's Plea.

Reaffirms Need of Public Welfare Department at the Capital.

Declares Public School is to be Preferred to Private Institution.

(BY A. P. NIGHT WIRE.)
WASHINGTON, Dec. 15.—American mothers were asked by President-elect Harding tonight to give to school officials and other public servants a full measure of co-operation in the educational, religious and physical training of children.

Speaking before a State meeting of the Child Conservation League, Mr. Harding declared it the duty of motherhood to keep the old-time home spirit alive in spite of the growing tendency to intrude the instruction of a child almost wholly to public institutions. He made a particular plea that religious training be kept within the province of the home and voiced a hope for revival of religious reverence in the trying times ahead.

The President-elect also asked that the public welfare agencies of the nation be kept in touch with the particular plea that religious training be kept within the province of the home and voiced a hope for revival of religious reverence in the trying times ahead.

TOKIO STIRRED BY KAHN'S SPEECH, SAYS EXPANSION OF NAVY MAY CAUSE WAR.

BY CABLE AND ASSOCIATED PRESS.

TOKIO, Dec. 15.—The recent speech of Representative Kahn of California in the House of Representatives in Washington, in which he declared that "if the statement, the publicists, the politicians, the agitators and the demagogues of Japan really would war with the United States they would be the ones to bring it on and not the Americans, is attracting much attention in Japan.

The Osaka Asahi Shimbun argues today that an extension of armaments, which Representative Kahn seems to think would prevent war, really would lead to a collision and that if the Americans desire Japan's friendship they should eliminate the sources of trouble. The newspaper considers America's present armament dangerous and proposes that both the United States and Japan adopt former President Monroe's Canadian frontier policy.

The Osaka Asahi Shimbun says that disarmament discussions are useless while the United States and Germany remain outside the League of Nations. Japan, the newspaper declares, constantly is menaced by America's naval expansion and, being deficient in technical and material for warships, Japan should concentrate on submarines and aircraft.

GARY DEFENDS JAPANESE.

Steel Magnate Says if War Comes That America Will be More to Blame.

(BY A. P. NIGHT WIRE.)
NEW YORK, Dec. 15.—Denouncing what he termed "a vicious and deliberate effort to stir up trouble between the people of Japan and the United States," Elbert H. Gary, chairman of the board of the United States Steel Corporation, declared in an address tonight at the annual dinner of the Japan Society of New York that, should the two nations clash, the people of this country will be more to blame than the people of Japan.

Asserting that he liked and trusted the honesty and integrity of the Japanese, Gary added: "They are building navies as a last resort of defense against attack without reason."

Baron Shidehara, Japanese Ambassador to the United States, and Roland E. Morris, Ambassador to Japan, were among the guests who heard Gary's address. Gary, who is building navies as a last resort of defense against attack without reason.

STEEL HEAD ON STAND.

Attorney Angered at "Evasion."

Bethlehem President Says His Company Insists on "Open Shop" Connections.

Building Trust Committee to Hear Schwab if He Cares to Give Testimony.

(BY A. P. NIGHT WIRE.)
NEW YORK, Dec. 15.—The Bethlehem Steel Corporation will refuse to sell fabricated steel to builders and contractors in the New York and Philadelphia districts to be erected on a closed-shop basis.

This policy was disclosed by Eugene G. Grace, president of the corporation, who testified today before the joint legislative committee investigating the alleged "building trust" by replying to charges that his corporation was sponsoring the open-shop movement by withholding steel from employers employing only union iron workers.

"I think it is a proper thing to protect the open-shop principle," declared Mr. Grace, who explained that his stand would not be changed even if building operations in New York were to be suspended because steel could not be obtained by union workers.

Whether the corporation will extend its policy to other parts of the country, the witnesses said, depends "entirely on what effect it should exert it to have on our general labor situation."

WESTERN UNION TO DEFY GOVERNMENT ON CABLE.

Carlton Tells Senate Committee Line Will Come Via Cuba; Witnesses Tell of British Monopoly.

(BY A. P. NIGHT WIRE.)
WASHINGTON, Dec. 15.—Notice was given the American government today by Newcomb H. Carlton, president of the Western Union Telegraph Company, that his company intends to connect its new cable from Barbados with its lines in the United States by means of existing cables to Cuba, regardless of the opposition of President Wilson and the State Department.

Carlton's statement was made in testimony before a Senate Interstate Commerce subcommittee which has before it an administration measure giving the executive department absolute control over the landing of cable lines on American soil.

He was one of four witnesses examined at the opening of an inquiry into the whole subject of cable communication in the Caribbean Sea. Among other things that the all-American cable monopoly enjoyed by the British company in Brazil.

There also was testimony that the All-American cable monopoly in the Caribbean Sea is a British company in Brazil. There also was testimony that the All-American cable monopoly in the Caribbean Sea is a British company in Brazil.

AUSTRIA LEAGUE MEMBER.

Elected by Assembly Without Opposition; China Joins Council.

(BY CABLE AND ASSOCIATED PRESS.)
GENEVA, Dec. 15.—The Assembly of the League of Nations elected today the first member of the League without opposition. The vote on the admission of Austria came after an unexpected passage of arms between Giuseppe Motta, Switzerland, and M. Viviani, representing France.

M. Motta, speaking on the report of the committee, recalled the rejection of Germany's application for admission

YULETIDE MAILS
BELOW NORMAL

Burlison Reports Little Increase in Volume.

People May be Giving Sparingly This Season.

Wrens Public Not to Delay Till Last Minute.

WASHINGTON, Dec. 15.—Postmaster-General Burlison declared today that there was a big slump in Christmas mailing and that the people are either curtailing their Christmas giving or putting it off until the last minute. In all cities of the country the pre-Christmas mail business is way below the usual.

"Until yesterday," said the Postmaster-General's statement, "reports throughout the country showed no sign whatever of an increase in the volume of Christmas mail, and the increase shown by reports on yesterday's movement of mail was so little as to be negligible."

"Last year by this time the volume of mail had increased fully 50 per cent by reason of early Christmas mailing and the largest movement of mail for the holiday season was reached about December 28 to 31. By December 15 last year probably more than one-fifth of the entire Christmas mail had been handled. This year practically none can be accounted for."

"If this means that the public is delaying the Christmas mailing until the last moment congestion and delay in delivery is inevitable. Even assuming that the Christmas mailing is to be very much lighter this year than last, congestion cannot be avoided if the mailing is delayed until the last few days before Christmas. Bad weather conditions which are to be anticipated at this season of the year, causing slowing down in the movement of trains and difficulty in handling the great volumes of parcels post would threaten to swamp the service if the mail is all dumped in just before Christmas Day. If this is to be avoided the public should begin mailing Christmas parcels at once."

ALLEGED MURDERER
TAKES ILL IN COURT.

(BY A. P. MONT WIRE.)
CAMDEN (N. J.) Dec. 15.—Nine of the jurors who will try Frank J. James, charged with the killing of David S. Paul, Camden bank messenger, were selected today. Twice during the selection of the jury James was taken ill and had to be removed from the courthouse.

Raymond W. Schuck, also indicted in connection with the killing of Paul, is expected to be a witness in the present trial. Schuck's trial is listed for January 4.

structural iron workers' union had not discriminated against the non-union product of the Bethlehem Corporation, but said it may happen.

"Facts and expectations and delusions are different things," replied Mr. Undermyer.

Declaring he "never liked the term 'collecting' as applied to employees' representation," Mr. Undermyer said he believed in a system of employees' representation.

"The American Steel and Wire Corporation had a 'collecting' system," he said, "and the Bethlehem employees elected their representatives to deal with the management of the company in all phases of the business, including the collecting of the service rendered by them, and that the plan is working very satisfactorily."

"If 95 per cent of the men in your shops were union men they would not have anything more to say as to the management of the company," he said.

"We only recognize them as employees," he replied to the witness.

"You take the liberty, don't you, of joining trade associations and acting as a unit in other organizations with them jointly?"

"No, no, Mr. Undermyer."

"You deny your employees, don't you, the right of acting jointly with employees of other concerns in dealing with you and your association?"

"We would not recognize it."

"But you expect other people to recognize dealings in which you enter as a member of the trade association, don't you, while denying your employees the same right?"

"Isn't it a fact, Mr. Grace," asked Mr. Undermyer, "that in times of depression, or when labor is plentiful, that the employees seek to eliminate the unions?"

"I do not know about that," replied the witness.

"You don't know about that and employ as many as 70,000 men, and when business is active, as high as 120,000," similarly replied the witness.

"Mr. Grace asserted the policy to sponsor the 'open shop' was adopted around September, 1918, when the American Federation of Labor attempted to organize our plant."

When the steel magnate admitted he believed it would be better for the steel workers in the United States to be "banded together in a single organization," Mr. Undermyer asked him if "that is the reason you are refusing recognition."

HOPES FOR CHANGE.

During the examination of the steel head, Mr. Undermyer told him that he disagreed with the corporation's policy and methods and hoped they would change them.

Mr. Undermyer said that if Charles M. Schwab, chairman of the board of the Bethlehem corporation, desired to appear before the committee to make a statement, they would be glad to hear him.

Testimony was heard today by the committee from contractors showing that building costs had been increased by the action of the fabricated steel manufacturers compelling them to let their subcontractors to members of the National Erectors' Association or the Iron League of New York.

Union structural steel workers also testified they had been discriminated against by the American Bridge Company, a subsidiary of the United States Steel Corporation.

The books and records of the National Erectors' Association were taken over by the committee for examination and process servers were sent out to find Capt. Robert Foster, alleged head of the detector.

her last train. The Moore complied with the request, knowing that it was serious to miss a train in Budapest, where due to the coal shortage, there were only a third of the regular number to serve a population 50 per cent greater.

Conditions in the Budapest zoo are pathetic. The animals are existing on limited rations and 10 per cent have died. The seals, depending on salt water fish, have all perished.

RELIEF KITCHENS CLOSED.

The American relief administration in Hungary has been forced to close its kitchens for feeding children due to lack of funds. Constant deputations of ragged children come to its office and inquire when the kitchens will be reopened.

Mrs. Lotz, 32 years old, and the widow of the great painter Charles Lotz, is living in the greatest poverty. She is trying to exist on a monthly pension of 800 crowns, equivalent to 10 cents in American money. She has been forced to sell all her valuables and most of her clothing.

POLISH DIET HELPS.

Word has been received from Warsaw that the Polish Diet has appropriated 200,000,000 marks as the Polish government's contribution to the fund for feeding the children of that nation. The American relief administration hopes to feed 1,000,000 children in Poland during the winter. As a means for bringing the necessity of feeding the children before the attention of the world, the Polish government has decided to postmark all letters leaving the country with the following inscription: "Help Poland's children and the American relief administration European children's funds in New York City." The food situation is still most critical. The relief administration is feeding 12,000 children and during the month sent food for an additional 20,000.

ARREST RELIEF WORKER.

In the neighborhood of Vilna, the arrest by the Lithuanians of one of the American relief workers known as the "gray Samaritan" has been reported. Miss Martha Gracsek, driving from Warsaw to Vilna, opened a kitchen in a small town along the way. Later the chauffeur inadvertently crossed the border into Lithuania. Miss Gracsek and her chauffeur were captured by the Lithuanians and held as spies. The American Legation at Warsaw took up the matter and secured the release of Miss Gracsek. Her chauffeur and her car are still being held.

NATION'S REFORMERS
ARE LOOSE.

CHICAGO, Dec. 15.—A "Court of Moral" may be the judicial department of the States if the latest news of reformers is successful.

HARDING'S PLEA
FOR CHILDREN.

(Continued from First Page.)

her, there must be the same ready disposition to co-operate with the home and the mother. Our public school system leaves to the home and its influence the great duty of instilling into the child those fundamental concepts of religion which are so essential in shaping the character of individual citizens and therefore of the nation. The duty remains to be performed at the hearthside, and will always be peculiarly prerogative of the mother. There never was a time when the world stood in more need than it does now of the consolations and reassurances which only a religious faith can have. It is a time of uncertainty, of weakened faith in the efficiency of institutions, of industrial systems, of economic hypotheses of dictum and dogma. Whatever our realizations, not our engrossment with those things which are concerned merely with matter and money, must be from proper attention to those which are of the spirit and the soul.

UNDERNOURISHMENT.

"It has been demonstrated to astonishing and alarming certainty that a large proportion of school children and even of adults suffer from undernourishment. Perhaps in the case of most adults the fault is of the individual rather than society. With children, however, it is otherwise. If society has permitted the citizens of tomorrow suffer real privation today, then the obligation is upon society to right that wrong, to insure some measure of justice to the children, who are not responsible for being here."

WORLD'S LEADERSHIP.

"I firmly believe that our country alone with others that claim to share in the world's leadership, has lately achieved one victory in behalf of better understanding and more intelligent grasp of these problems. I refer to the bestowal upon women of full

FITZGERALD'S—For the Advancement of Music

An Important Xmas Message

to all intending purchasers of a piano or player-piano

You are about to make a decision of far-reaching effect—

- the choice of an instrument for your home
- you and your family will have an entire lifetime either to rejoice in your choice or to regret it
- that you earnestly WANT the best is a foregone conclusion
- to find it is your problem
- and to AID you in doing so is our purpose
- will you avail yourself of our helpful service?
- we ask merely that you come in and LISTEN to

The AMPICO In the KNABE Haines or Franklin Pianos

—listen to this wonderful instrument and compare it thoughtfully with any other piano you ever heard.

—compare it carefully with the very best piano or so-called "reproducing piano"

—we shall have nothing to say unless you desire information

—and we believe most firmly that if you will LISTEN, and if you really have the ability to discern the better tones, the better musicianship, from the inferior, that there is no question about the instrument that will go into your home this Christmas to gladden your family for all the years to come.

—it will be the AMPICO in either the KNABE, HAINES or FRANKLIN PIANOS!

The Cost Is Little More Than That of a Player-piano

—but the SATISFACTION is infinitely greater!

The AMPICO in the KNABE, HAINES or FRANKLIN PIANOS may be secured at prices ranging from \$1050 to \$4500. Terms may be arranged. Pianos or Player-pianos accepted in partial payment.

We Are Open Evenings Until Xmas.

FITZGERALD'S MUSIC CO.
HILL STREET AT 727-729

~the sign of quality

Stenciled in bold, clear blue and gold, the UNITY Sign is to be found on the window of one store in your neighborhood.

That sign—the Sign of Quality—invites you to share in the manifold benefits for which it stands: High grade merchandise of every nature; first class service on every occasion; the guarantee of lasting satisfaction.

UNITY Products—canned goods, spices, tea and coffee, all the market basket needs for every housewife—are made to give true satisfaction in use. They are clean, pure, inviting—uniformly good.

TAPESTRIES TO PURCHASE BREAD

Austria to Pawn Priceless Hapsburg Collection.

Will Buy 50,000 Tons of Flour With Proceeds.

Wonderful Weaves May be Exhibited in America.

(BY CABLE AND ASSOCIATED PRESS.) VIENNA, Dec. 14.—When by purchase, gift and inheritance the House of Hapsburg acquired the 999 or more tapestries comprising the most superb collection in the world its members hardly foresaw that some day they would be pawned to buy bread for a succeeding republic.

The Reparations Commission having given its consent, the government is now trying to raise enough money on these tapestries to purchase 50,000 tons of flour against the imminent exhaustion of the supply on hand. The bread ration has been reduced to 20 per cent wheat flour content, with 80 per cent corn meal and 30 per cent rye. The best that can be said of the resulting bread is that a very hungry person can eat a little of it.

It is understood that a movement is on foot for the organization of an international syndicate to advance the required amount of cash.

The plan... contemplates that the tapestries pledged will be carefully selected from the various schools represented in the collection and these in part or in whole will be put on exhibition in the great cities of Europe and America.

For some months the finest of these weaves have been on exhibition in the Belvedere Palace here, exposed for the first time to the public. Always they have been kept either in the Hofburg or Schoenbrunn palaces, brought out on rare state occasions in the days of the monarchy to decorate the great salons. The largest of them barely had space on the sidewalls of the vast apartments in the Belvedere, where daily hundreds of persons pay the small admission fee to feast on the wealth of color, while in every room artists at easels copy them.

Representatives of all the Austrian associations devoted to science and art have protested to Chancellor Mayr against the contemplated pledging of the priceless Gobelins tapestries, owned by the government as security for food supplies. It has been proposed that the tapestries be pledged for \$4,000,000 to secure two months' flour rations from the United States.

SENATORS OBJECT TO COLOMBIAN TREATY.

POINDEXTER PREDICTS THAT FACT WILL NOT BE RATIFIED THIS SESSION.

(BY A. P. NIGHT WIRE.)

WASHINGTON, Dec. 15.—An inquiry from Senator King, Democrat, Utah, concerning the likelihood of a treaty with Colombia growing out of the petitioning of Panama being brought before the Senate for action at this session was met in the Senate today with a prediction by Senator Poinexter, Republican, Washington, that the treaty was "not likely to be ratified at this session."

Senator Thomas, Democrat, Colorado, said he had conferred with Senator Fall, New Mexico, chairman of the subcommittee on the treaty in charge, and had found there was serious objection to the treaty by some committee men.

DISCOVER ANOTHER PREHISTORIC VILLAGE.

(BY A. P. DAY WIRE.)

NEW YORK, Dec. 15.—Discovery of the ruins of a prehistoric village and cemetery, in which were many relics of great value, in the Navajo country in New Mexico, was announced today by the American Museum of Natural History.

The discovery was made by an expedition party, headed by Earl H. Morris, which has been conducting excavations in the Pueblo community dwelling at Aztec, N. M.

Hundreds of polished pottery vessels of artistic design and scores of ancient tombs, which revealed many interesting habits of living, were unearthed, he said.

MANY HAVE TROUBLE WITH INCOME TAXES.

(BY A. P. DAY WIRE.)

NEW YORK, Dec. 15.—Difficulty is being experienced by many individuals whose 1919 incomes require Federal tax payments varying from \$100,000 to more than \$2,000,000 to meet the last quarterly payment, due today.

William H. Edwards, collector of internal revenue, revealed yesterday. In one instance the quarterly figure was \$700,000.

"These taxpayers," Collector Edwards said, "told me they simply could not pay—that they did not have the cash. They begged for an extension of time, which I was powerless to grant." Lines of business most seriously affected, he said, were the silk and textile trades and dealers in automobile tires.

SACRIFICE ART FOR MODESTY.

Florida Christian Civic Body's Censorship Puts Dresses on Nude Statues.

(BY A. P. DAY WIRE.)

ST. PETERSBURG (Fla.), Dec. 15.—Visitors at the Florida Winter Art School exhibition today found the nude statues garbed in bloomers and middle blouses. Recently the Christian Civic League censured the nude art at the school and today several busts suspended from the ceiling from strings tied around the necks were labeled "Lynched by the Christian Civic League."

SUGAR-BEET FARMERS ARE GIVEN BIG SUMS.

(BY A. P. NIGHT WIRE.)

SALE LAKE CITY, Dec. 15.—With disbursements to farmers and others in Utah and Idaho today, reports show that approximately \$40,000,000 has been paid for sugar beets by local sugar companies this year.

The Utah-Idaho Sugar Company and the Amalgamated Sugar Company top the list with payments for the year totaling \$10,000,000 and \$7,800,000, respectively.

THREE NAVAL HEROES REWARDED BY DANIELS.

(BY A. P. DAY WIRE.)

NEW YORK, Dec. 15.—Secretary Daniels of the Navy today rewarded which will permit laborers to acquire the land allotted to them.

Williams, second engineer, and W. G. Grace, chief engineer, of the U.S.S. General George W. Goethals, who assisted in rescuing the crew of the submarine S-3, which was disabled off Cape Henlopen last September. Swinson and McWilliams received binoculars and Grace a gold watch.

SPANISH KING GIVES LANDS FOR FARMING.

(BY CABLE AND ASSOCIATED PRESS.)

MADRID, Dec. 15.—Instructions have been given by King Alfonso for the formation of an agricultural syndicate, to parcel out the King's royal estate at El Pardo, nine miles west of this city, for cultivation under the auspices of the Catholic Agrarian Federation.

The property contains nearly 2500 acres and will be divided into small plots. A plan has been devised which will permit laborers to acquire the land allotted to them.

Foreign Exchange

that is foreign:

The foreign exchange facilities of this bank are the most complete west of Chicago.

We maintain our own exclusive banking connections in all of the world's principal commercial centers.

That creates efficiency, reliability and economy in our foreign exchange business.

Useful and Appropriate Christmas Presents

The Spirit of Christmas is to Give; to select that something which will bring to the heart of the recipient a feeling of gratitude and appreciation, not only for the immediate present, but to perpetuate a lasting remembrance.

Eighty per cent of those making Christmas purchases seek for the article that will prove useful or decorative in the home, for that which will best serve the individuality of the one to whom the presentation is made.

In many of the representative families of today will be found treasured remembrances of Christmas from those who have long since passed from the home beside to distant parts of the country or world; from those who would probably be forgotten but for that reminder of kin or friendship of years, and even generations, gone.

The suggestions offered by the Tiffany Studios for Men, Women or Mademoiselle, combine the quality and workmanship which may be treasured and enjoyed individually or collectively by all members of the home; that which may be passed from generation to generation to those who treasure "Art for Art's Sake."

Illustrating Ash Tray Vases of Tiffany Bronze, finished in Silver and Natural Bronze.

Tiffany Favrille Glass—

A development in which all the wonders of Nature have been contributors to the inspiration necessary for color effects.

Floor and Table Lamps—

A creation of distinctively original workmanship and design, developed in iron or bronze and finished in green, brown or gold.

Period Design Desk Sets—

Many of the designs have been faithfully patterned after Venetian, Ninth Century, American Indian and Oriental Craftsmanship.

DENMAN ACCUSES BRITISH MISSION

First Shipping Board Head Before Committee.

Intimates Fight Caused His Resignation.

Tells of Secret Conferences With Balfour.

(BY A. P. NIGHT WIRE.)
WASHINGTON, Dec. 15.—Further testimony that Great Britain attempted to influence the American government was given today by William Denman of San Francisco, first chairman of the board, before the special House committee investigating operations of the Federal shipping agency.

Denman charged that the British mission which came to the United States in April, 1917, and which was headed by Arthur J. Balfour, then British Secretary of State for Foreign Affairs, had undertaken to influence the Shipping Board and had succeeded in getting one of its members elected to the committee he did not know how Sir Connop Guthrie, Denman told the committee he did not know how Sir Connop Guthrie was elected—that it happened between noon and half-past three one afternoon—but that he had learned that three or four members of the British mission were present.

"Afterwards the Shipping Board had a warm session," he continued. "It lasted twenty minutes and all that had been transacted at the previous session was wiped out."

The witness intimated that his insistence that the board be kept free from British influence had more to do with his resignation as chairman than anything else. He testified that while he wanted British cooperation, he did not want British control.

Denman said he had frequent conferences with Balfour and that "certain phases of the conference approached the nature of secret treaties."

He indicated his willingness to disclose the nature of the negotiations if President Wilson would consent.

When Denman concluded, the committee adjourned the inquiry until after the Christmas holidays.

DRANK "MILKSHAKE," GOES INTO STUPOR.

FRESNO YOUTH TAKEN FROM TRAIN UNCONSCIOUS AFTER DRINKING LIQUID.

(BY A. P. NIGHT WIRE.)
PORTLAND, Ore., Dec. 15.—A well-dressed boy who told hospital attendants his name is Chester Duncan, 15 years old, of Fresno, was taken from a Southern Pacific train in a semiconscious condition here today, as the result of partaking of what he termed a "milkshake" offered him by a man on the train.

He was taken from the train to a hospital by James P. Hoey of this city, Grand President of the Native Sons' lodge, and it was three hours before he could make a statement. Immediately after announcing his name and residence, and the fact that he was in the second year in the Fresno High School, he lapsed into the stupor again.

When found in a retiring room on the train the boy had a half-filled bottle of some substance containing turpentine in his hand.

Later, when he had apparently regained his normal faculties, the boy said his mother, Mrs. Tennessee Duncan, lived near Fresno and that a brother, Leo, also resided there. Other brothers are attending Stanford University, he said.

According to his later story, the boy remembered nothing after having drunk a milkshake purchased for him in a Fresno drug store yesterday morning by a tall dark stranger.

He had a hat check, indicating that he should have left the train at Tracy, although he said he knew no one there.

His brother Leo is on his way to Martinez, officers here have been informed.

FOUR MILLION MORE YEARLY IS NEEDED.

STANFORD MUST HAVE ADDITIONAL SUM OR RAISE TUITION EXPENSES.

(BY A. P. NIGHT WIRE.)
STANFORD UNIVERSITY, Dec. 15.—Stanford University must have an additional \$4,000,000 yearly for expenses, President Ray Lyman Wilbur announced today. If this is not raised by increased endowments or gifts before October 1 of next year, the quarterly tuition will be increased from \$40 to \$75, he said.

High cost of living, underpaid instructors and the housing shortage for both students and professors, President Wilbur said, had caused the trustees to take this action. In addition to the tuition cost, the usual \$20 in fees will be required of all students, but the president said students already registered will not be affected by the increase.

"Stanford University has had to meet a new crisis in its affairs, due to the many growing university needs," the statement said. "There are certain limits to the trust (the Leland Stanford trust) under which the university is financed."

"A method of deferred payments for students working their way through will be established so that payments for tuition may be made by seven-year notes, bearing no interest until date of maturity."

OPEN RADIO SERVICE.
(BY A. P. NIGHT WIRE.)
NEW YORK, Dec. 15.—Direct radio communication service connecting New York, Chicago, Cleveland and Detroit will be opened to the public tomorrow afternoon. Mayors of each of the four cities will inaugurate the system with an interchange of greetings.

RED PEPPER IN EYE HARMLESS?

Prisoner Accused of Using It on Policeman Offers Any Doctor's Word.

A handful of red pepper hung into a man's face may cause pain, but it is harmless, according to the position taken in Justice Brown's court yesterday by Irving Grant, who was given a hearing on a charge of having attacked Police Officer O. D. Lewis on the 8th inst. with intent to do great bodily harm. When the officer attempted to arrest Grant the latter hung red pepper into the policeman's face, but was run down and captured by bystanders.

The court yesterday expressed doubt as to the charge preferred, but Dep. Dist. Atty. Hill offered to call in several doctors to testify. The defendant also offered to leave the issue to expert testimony and said he would be glad to call up the name of the first doctor he could find in the telephone directory. The case was continued until Monday.

CHILDREN'S EDUCATION COSTS FATHER'S LIFE.

KENTUCKY MOUNTAINEER DIES AS THE RESULT OF DENIAL AND OVERWORK.

(EXCLUSIVE DISPATCH.)
HARLAN (Ky.), Dec. 15.—The death of John Callahan, an uncrowned hero, is mourned in the Kentucky mountains.

He was uneducated, just a plain mountain man, but he died from overwork that he might keep his children in school.

When his wife died she left him with eight children, the oldest 11 years and the youngest a babe in arms.

He didn't ask for help, but took the mother's place in the small mountain cabin.

Totting as long as there was light in the fields he came home at night cooked the meals for the next day, made shoes, patched clothes, nursed and mothered his little ones.

As they grew older he worked harder and by harsh self-denial he was able to save enough to pay the way of his children through the settlement school.

COURT UNDERTAKES TO ROUND UP JOBS.

(BY A. P. NIGHT WIRE.)
PORTLAND, Ore., Dec. 15.—Municipal Judge George Roseman announced today he would endeavor to establish an unofficial free employment bureau in connection with his court as a means of assisting worthy men and women who are sincere in their efforts to find work.

Judge Roseman said he would issue a public appeal to all large employers to notify him if they could give employment to men or women who are rounded up by the police in the vagrancy drive now in progress.

ROOSEVELT A SPEEDER.
(BY A. P. NIGHT WIRE.)
NEW YORK, Dec. 15.—Kermit Roosevelt today was fined \$25 for speeding on Staten Island. He pleaded guilty, explaining his speedometer was broken.

WOULD RECALL POLICE JUDGES.

Action to Be Started by Bay
City Civic League.

"Spud" Murphy, Girl Attack-
er, Fears Mob Violence.

Court Denies Plea and He
Faces Trial Today.

[BY A. P. NIGHT WIRE.]
SAN FRANCISCO, Dec. 15.—Re-
call of two police judges will be
sought by the Civic League of Im-
provement Clubs and Associations,
its board of governors decided to-
night, as a result of inquiry into con-
ditions here, evoked by recent at-
tacks on young women.

The board of governors endorsed
the report of a special investigating
committee, presented to it yesterday,
which urged besides the recall of
Police Judges John J. Sullivan and
Morris Oppenheim, that the Mayor
be called upon to invoke the power
vested in him to ameliorate con-
ditions now existing, not touched upon
by the recall of the two judges.

Isaac Jacobs, head of this special
committee, announced a few days
ago that threats had been made
against him because of his activity
in the investigation of alleged vice.

George W. Gearhard, secretary of
the league, announced that petitions
looking to the recall of the two
judges would be placed in circulation
tomorrow.

That the crusade to clean up San
Francisco must be continued and
will be continued, was a statement
made by Chief of Police Daniel
O'Brien today at a luncheon in his
honor by the Downtown Association
and San Francisco Ad Club.

"Every parasite will be either in
jail or driven from the city or will
find useful occupation," O'Brien said
in connection with his pledge to con-
tinue operations.

Mayor James Rolph, Jr., told the
meeting that as he was the head of
the city's government, he accepted all
criticism and shirked none. The
Mayor asked for constructive criti-
cism.

MURPHY'S PLEA DENIED.
Edmond Murphy's request that his
trial on a charge of attacking two
girls be held outside of San Fran-
cisco was denied by Judge Louis F.
Ward, who will hear the case to-
morrow.

The court said, however, that if
examination of prospective jurors
indicated strong feeling against
Murphy was too general, another
motion for change of venue would
be entertained.

Approximately 150 spectators will

be admitted to the courtroom.
Among them will be Murphy's wife
and 2-year-old boy. Murphy will
be strongly guarded.

FEARS LYNCHING.
Murphy signed the application
for the removal of action, being
brought into court for that purpose.
The application said that the tem-
per of the people had been so
aroused that it was feared a fair
trial in San Francisco was impos-
sible. The document also referred
to a "rumble of lynching."

A motion for a continuance of
the trial on the ground that the de-
fense had not had opportunity to
peruse the transcript before the
grand jury likewise was denied.

REVIVE CURFEW.
The curfew law has been dusted
off, and unaccompanied children
will be prohibited on the streets in
the night hours, beginning tonight.

The Chamber of Commerce ap-
pointed a committee today "to in-
quire into law enforcement with
special reference to the police
courts." It was announced also
that Chief of Police Daniel J.
O'Brien and representatives of
various police information will meet
"in the next few days" to discuss
the dance hall situation. Accord-
ing to police information, the girls
said to have been attacked by men
now awaiting trial met them in
the dance hall.

HAD DUM DUM BULLETS.
[BY A. P. NIGHT WIRE.]
SACRAMENTO, Dec. 15.—Neal
Lorch and James Dale, arrested
here last week, and who the pe-
lice said, admitted they had been
told to leave San Francisco, were
sentenced to the County Jail for
six months each today after Police
Judge Sillitoe had found them
guilty of carrying guns. Police de-
tectives said the guns carried by the
men were loaded with dum dum
bullets.

BANKS LOAN MILLIONS
WITHOUT BORROWING.

[BY A. P. NIGHT WIRE.]
SAN FRANCISCO, Dec. 15.—Mil-
lions of dollars of credit were ad-
vanced by State banks of California
for moving of crops, without bor-
rowing a dollar from outside sources.

Charles F. Stern, State superintend-
ent of banks, said today.
The total deposits increased \$43-
500,000 in sixty days, he said.

JANITORS MAY LOSE
HOMES OVER THREAT.

[BY A. P. NIGHT WIRE.]
CHICAGO, Dec. 15.—The Chicago
Real Estate Board today threatened
the 5000 apartment-house janitors
who have voted to strike January
1 for a wage increase of \$1 a flat,
with eviction from their living
quarters in the event of a strike.

Apartmenters are at a premium in
Chicago.

THIS WAS REGULAR CYCLONE AND AN UNUSUAL WINDMILL; MAYBE-REAL CORRESPONDENT.

[EXCLUSIVE DISPATCH.]

CEDAR GROVE (N. J.) Dec. 15.—A breeze blew up the Peck-
ham Valley here yesterday and by night had become a young cy-
clone. When Wallis Dobbs of this town went out to water the cat-
tle the windmill was turning so fast it pumped hot water.

XENIA (O.) Dec. 15.—This city's one street car may cease to
turn a wheel unless the operators of the road heed the plea of the
city officials. The franchise expires the first of the year and the
owners don't care about renewing it.

SHELBYVILLE (Ind.) Dec. 15.—E. C. Lineville and wife and
Mrs. Lineville's father, J. A. Eaton, aged 18, living seventeen miles
from this town, came here for a visit, the first time in seventeen
years. Eaton said the last time he was in town was the "day of the
big ox roast." Eaton has never seen a picture show and refused
to witness a performance while here.

BOONEVILLE (Ky.) Dec. 15.—Nancy and Cynthia Hale, aged
14 and 15 years, respectively, who cook and wash and sew for six
little motherless brothers and sisters, have made a quilt which they
have christened "the yellow ostrich feather." Neighbors thought
so much of it that it was sent to Louisville to be sold for the bene-
fit of women of the mountains.

EASY COME, EASY GO;

UNCLE SAM TAKES IN \$800,000-
000 TODAY AND EXPENDS
\$840,000,000.

JAPANESE SITUATION
DISCUSSED IN CANADA.

PAPER ASKS: "IS UNITED
STATES APPREHENSIVE IN
COAST MUDDLE?"

[EXCLUSIVE DISPATCH.]
OTTAWA (Ont.) Dec. 15.—"Does
this mean that the United States is
really apprehensive of Japan?"
asked the Montreal Gazette today
after references to the Japanese-
Canadian question and to Pacific
Coast matters. It recalls the United
States naval Secretary's Wash-
ington intimation "that the day will
never come when a powerful fleet
will not be kept in the Pacific," and
discusses same.

Many Canadian newspapers,
especially in view of the British
Columbia condition being much the
same as California's respecting the
oriental question, are commenting
on the present situation regarding
the seven hundred million-dollar
naval expenditures talked of at
Washington.

MEMORIAL TO FIRST
DIVISION IS PLANNED.

[BY A. P. NIGHT WIRE.]
WASHINGTON, Dec. 15.—Per-
mission for the erection of a mem-
orial in Washington to the dead
of the First Division, would be
authorized by a joint resolution in-
troduced today by Senator Wade
the collector said, but while doing

It glints
the hair

That beautiful sheen and
glow—those glints, hints
and undertones of rich
color so entrancing in the
hair of women of action
may now be yours, too.
Until Chaderella Golden Glint
Shampoo was introduced, these
precious qualities were indeed a
rare gift. Now the hair of every
woman may glow with a new
radiance. This shampoo vivifies
the bewitching glints and tints
—lives up the dull, dark shad-
ows—emphasizes the undertones
—all without changing the color
of the hair or injuring it in any
way. It is the only shampoo that
does this—the reason why it is so
much in demand—furnished by
the most fashionable hairdress-
ing parlors. Make its acquain-
tance at your first opportunity—
have your hairdresser give you
a Chaderella Golden Glint sham-
poo. If you shampoo your own
hair, buy a package at a nearby
drug store, better goods counter
or beauty shop.

Visit a beauty shop often, if
you can; it will help you to
keep your charm.

The Store of Service

IN all things it is our constant aim
to excel. Service is more than a mere word in our
business. It is one of the fundamentals that has made
possible this great Store. At this season of the year
—directly before the holidays, when business reaches
the climax of the year—you'll find here a service that
is to your liking.

Mullen & Burt
Broadway
at Sixth

No other piece of home furnishings is more appreciated
than the floor clock. This and the constant service a clock
gives, makes it a most admirable Christmas gift.
In this comprehensive display of clocks in the Gift Salon
where the above sketch was made, is a Waltham or a Seth
Thomas clock, a supreme expression of dignity and good
taste that is quite worthy of a place in your home.
All floor clocks are NOW reduced 25%, making
their prices

\$71.25, \$262.50, \$319.75
\$488.75 and \$600.00
including the war tax.

Mantel Clocks at Attractive Prices
Mantel clocks, too, are expressive of good taste, and a
constant satisfaction in their dependability—the continuous
tick of perfect time, year by year.
These range in price from \$16.00 to \$150.00.

"Acid-Mouth" Drills Away Noiselessly

"Acid-Mouth" can exist in your mouth for years without your knowing it, although you wonder all the while what is causing those cavities in your teeth.

But make no mistake about the ever-threatening danger of "Acid-Mouth." It is estimated to be the chief cause of tooth decay—95 in every 100 persons are said to have it.

PEBECO TOOTH PASTE

Counteracts "Acid-Mouth"

Pebeco Tooth Paste counteracts unfavorable mouth acids by natural methods. It simply stimulates the saliva to perform its complete daily work of keeping the teeth, gums and interior of the mouth thoroughly cleansed and free from harmful acids and deposits.

Have your dentist go over your teeth twice a year, and use Pebeco twice a day.

Pebeco is sold by druggists everywhere

BOYS HAVE ONLY ONE GIFT WISH.

Sons of America Want the Emblem on Sweaters.

Fund for Christmas Must be Closed by Saturday.

Five Hundred Youngsters Get Citizenship Training.

Five hundred and seven boys of foreign parentage who are eager to become worthy American citizens are to be made the happiest of the city's children this Christmas. Generous-hearted citizens contribute their gifts to a \$2500 fund which is now being raised to provide each of the boys with a gift which will keep him warm. The gifts are to be warm heather sweaters, and upon the breast of each one will be the big initial "S. A." the emblem of the Sons of America, an organization of boys of foreign parentage who are devoting every available hour of their play time to the study of Americanization.

The fund must be raised by next Saturday. If it cannot be raised by then, the boys will receive no Christmas gifts. They do not want turkey or candy for Christmas. All they want is the warm sweater which will help to kindle the fires of Americanism in their youthful hearts—and if it is within the power of Fred Meyer, a veteran of the World War and organizer of the Sons of America, to raise the cash they will get their wish.

EIGHT HAVE DONATED. The campaign for the fund was launched yesterday when eight donations were received at The Times office, totaling \$144. The contributors were:

Times Mirror Company \$100
The Times 25
A. J. Brown 10
Fred Meyer 10
S. F. Meyer 10
Mrs. M. McCullough 10
A. F. Ford 10

The Sons of America was started a little more than a year ago by Fred Meyer with a club of thirty-three Armenian boys at Fourth and Olive streets. Since then it has grown into an organization of ten camps, all located east of the Los Angeles River and in communities where other boys' organizations have not spread. Each club meets once a week and every Saturday all the clubs join together for a hike in the mountains.

CREED AND RITUAL. Their creed is "Old Glory." Their program consists of their ritual on Americanism, calisthenics, semaphore practice, handicraft, woodcraft and story-telling—tales of American history and patriotism. The organization is receiving the

WASHINGTON RELICS SOLD AT AUCTION.

(BY A. P. DAY WIRE.) PHILADELPHIA, Dec. 15.—A miniature portrait of George Washington, painted at the request of Martha Washington, by Charles Willson Peale, has been purchased at auction here by the Mt. Vernon Association for \$4600.

The miniature, a work of the artist's son, was one of a number of Washington relics from the estate of Dr. David Stuart, a kinsman of Washington, is a portrait on ivory in a gold frame.

Washington's shaving outfit, consisting of two razors, hone, strop, brush, comb and mirror, in a Morocco case, was sold to an anonymous purchaser from New York for \$350.

CRIMEAN REFUGEES GOING TO MEXICO. (BY A. P. DAY WIRE.) MEXICO CITY, Dec. 15.—Sixty thousand Russian refugees from the Crimea are expected in Mexico within the next few months, according to a report recently made to the Department of Agriculture by one of its agents who has just returned from the Near East.

The agent declared that many of the Russians will embark for Mexico within a few weeks. The government has signified a willingness to receive them.

CENTRAL AMERICAN CONGRESS ADJOURNS. (BY CARLS AND ASSOCIATED PRESS.) SAN SALVADOR (Republic of Salvador), Dec. 15.—Sessions of the Central American Union Congress at San Jose, Costa Rica, have been suspended because many delegates desire instructions from their governments before beginning to draft the final convention for signature.

WAR DEAD BACK HOME. (BY A. P. DAY WIRE.) NEW YORK, Dec. 15.—The largest shipment of American war dead to be returned on one ship, 2479 bodies, arrived here today on the Army transport Wheaton from Bordeaux and St. Nazaire.

LIVE-STOCK MEN MEET IN TEXAS IN JANUARY.

(BY A. P. DAY WIRE.) DENVER, Dec. 15.—A tentative program was issued here today for the Twenty-fourth Annual Convention of the American National Live Stock Association, to be held at El Paso, Tex., starting January 12, next.

According to officials of the association the live-stock industry never was confronted with more serious problems and the meeting is expected to be one of the most important held by the association in January.

New York Uses Much Whisky. (BY A. P. DAY WIRE.) NEW YORK, Dec. 15.—Greater New York's daily whisky ration has been fixed at from \$6,000 to 120,000 quarts, Charles R. O'Connor, Federal prohibition director for the State, announced yesterday. Most of the whisky withdrawn for medicinal purposes, the director added, is used in hospitals and sanitariums.

SHRINERS' POTENTATE TO BE HONORED JAN. 8.

(BY A. P. DAY WIRE.) TACOMA (Wash.), Dec. 15.—Twenty-three mystic shrine temples on the Pacific Coast will hold a ceremonial here January 8 in honor of Ellis Lewis Garretson, Imperial Potentate of the Shrine in North America, it was announced today.

Several hundred shrine candidates from Pacific Coast cities will be taken into the order.

NEGROES FIGHT FOR NEW YORK, DEC. 15.—A real un-

known problem which exists in the South today is being forebodingly illustrated in different parts of the country. Men who are out of the most recent developments of the South are the soldiers released from the absentee landlords who have made plans to work the land themselves.

Unemployed have carried on a campaign which has not unlike the land seizure movement in Italy and Spain. The authorities have the effort to interfere, as they have been unable to offer these idle men. A central office to meet the unemployed has been set up in London. The government is encouraging them to provide work for the unemployed. Now their own communities have fallen here, has given every employment to a few, but also increased the stream of

RED PACT HITCH. The other hitch has come in the relations between Great Britain and Russia for the resumption of the Moscow government. Now the Moscow government is demanding that Britain protect the shipments of the gold that are to come to this

INVESTIGATE NAVY. London defense commission has begun an investigation of the position as compared with the forces of other nations. Now it relieves temporarily the government which the government has feared that the United States is a danger to British supremacy. The government is trying to silence the clamor of the British public by a campaign of naval shipbuilding program.

one section of the public is in reduction of naval armaments, the other is demanding a quinary and the military is being severely criticized.

DEBTS IN NITRATE BETWEEN TWO FIRES. Americans interested in the trade have not signed the trade and are said to be considering the advice of counsel, which is a foreign country, the country, which is the product of a monopoly, a product whose sale of which they might be violating national laws of the United States.

MISSIONARY IS TAKEN. Christian Society Officer Dies at Battle Creek.

RECEIVED DISPATCH. TLE CREEK (Mich.), Dec. 15.—A. McLean, author and minister, died here today after a long illness. He was a member of the Christian Society at Battle Creek, Mich.

ILLINOIS TOWN HAS MILLION-DOLLAR FIRE. (BY A. P. DAY WIRE.) LOUIS, Dec. 15.—Fire which spread the glory of the Halm and Rolling Mill Company at Madison, Ill., near the town of Madison, Ill., today caused a loss estimated at \$1,000,000. The origin of the fire was determined. One man was killed and several others injured. The fire was caused by a defective furnace. The fire spread rapidly and the town was in flames. The fire was caused by a defective furnace. The fire spread rapidly and the town was in flames.

MISSOURI TOWN HAS MILLION-DOLLAR FIRE. (BY A. P. DAY WIRE.) LOUIS, Dec. 15.—Fire which spread the glory of the Halm and Rolling Mill Company at Madison, Ill., near the town of Madison, Ill., today caused a loss estimated at \$1,000,000. The origin of the fire was determined. One man was killed and several others injured. The fire was caused by a defective furnace. The fire spread rapidly and the town was in flames.

NEGROES FORM STOCK EXCHANGE
(BY A. P. MURPHY)
NEW YORK, Dec. 15.—A group of negro business men, it was learned yesterday, have obtained a charter for the Harlem stock exchange, which will be opened about January 1 and will be owned and controlled exclusively by negroes. Trading will be limited to stocks of corporations owned and managed by negroes, and there are said to be more than 100 in New York, all located in the negro capital and business districts in negroes.

WASHINGTON NEWS IN BRIEF.
(EXCLUSIVE DISPATCH.)
WASHINGTON, Dec. 15.—President Carlton of the Western Union told a Senate committee how he proposed to outwit the State Department by landing the Barbados cable in Cuba and connecting with the Miami cable at Havana, thus hooking up with the British cable monopoly in communication with the South American east coast.

FEDERAL CERTIFICATES ARE OVERSUBSCRIBED.
LAST TWO ISSUES OF TREASURY NOTES MEET WITH HUGE SUCCESS.
(BY A. P. MURPHY)
WASHINGTON, Dec. 15.—Secretary Houston announced tonight the oversubscription by \$200,000,000 of the two issues of treasury certificates offered last week. The total subscriptions aggregated more than \$700,000,000. The Secretary said, for the combined issue, which was for approximately \$500,000,000. The issues were offered to meet in part the \$400,000,000 in maturities of certificates and interest payments due today, and \$300,000,000 maturing next month, as well as current expenses, which it is estimated will be \$500,000,000 due today from income taxes will not cover.

Give Toys!

says Santa
—and Santa Claus knows
what he's talking about—
for he spends a great deal
of his time among the hun-
dreds of Boys and Girls
on Bullock's Fifth Floor
—and he learns JUST
WHAT THEY
WANT!

Bullock's Toy Section is featuring some specially desirable Toys at
new, low prices. To pick the Children's Christmas Toys from among
these Special Features at Bullock's means to save appreciably on one's
Christmas Budget. A few of these Specials for Today are quoted below:

Coaster Wagons, \$8.50 50 Autos at \$8.75

Remarkably low price on 14x32 inch Wa-
gon with hardwood bodies having detachable
10 inch, rubber-tired wheels; special \$8.50;
valuable for hauling or coasting.

Dressed Dols, \$2.95

Only fifty of them at so low a price! Dolls,
18 inches high; fully dressed; choice of girls in
blue or blue dresses and babies in white dresses;
composition heads and mohair wigs; bodies
of solid wood.

Moving Picture Machines

Black metal housing mounted on wooden base,
measuring 6 3/4x12 1/2x15 3/4 inches; electric
plug and six feet of extension cord, three
reel film—nine feet long; also three
reel film slides with each machine; priced at
\$10.00; set of 3 extra films, \$1.00; set of 3
reel films also at \$1.00.

There are but a few among many remarkable values
in Toys on Bullock's Fifth Floor—where Santa
Claus comes from 9 to 12 and from 2 to 5 every M-
day, Tuesday, Wednesday, Thursday and Friday
from 9 until store closing at one o'clock on S-
aturday morning—from now until Christmas. Bring
children and let them tell Santa just what they want!

Bullock Rugs for Christmas

The delightful custom that so many people have adopted—the Christmas Custom of ad-
dressing beautiful pieces to the home furnishings—should be perpetuated! From such a Gift
is imparted to every member of the Family and to the Guests who accept the
hospitality of one's Home as well!

Bullock's has many such gifts of various articles and at many prices. High among them
Value and Desirability—are—

Oriental Imported Rugs

A fine collection of Persian, Turkish and Chinese Rugs
in small and large—in wondrous colorings and de-
signed very reasonably—on Bullock's Sixth Floor.

Wilton Rugs

First quality Wilton Rugs—in complete assortment—
at special prices—should prove exceptionally interesting
to you. Patterns are all fine reproductions of choice
Persian and Chinese Rugs—in wonderful colorings of blue,
red, beige and mulberry.

Carpet Sweepers

To have good Rugs without good Carpet Sweepers would be fairly useless—and in Bullock's Rug
Section one can find many splendid Sweepers—ranging in price from \$4.75 to \$8.75.
—Bullock's Rug Section is on the Sixth Floor.

'Tis the Christmas Season—Open Wide the Doors and

Let Takeo Enter

For the Christmas season is a
time of Happiness—and Takeo is
the Symbol of Happiness! And
Takeo is a Symbolism that is made
plain by material things.
Takeo is a thing—one almost
as an "idol" of novel attractive-
ness. The quaint expression of
art—the varied colors—the
longest style of resting—all
combine to give him that mystery of
the Orient that seems to catch one
and hold one.
Takeo is created to be both ornament
and useful. There are Takeos that
are also included—for they sit all day on
a soft, plush cushion—and wish
Takeo that also sit and wish—
to hold a Lamp Shade as does the
figure of the illustration—or to keep
the lamp—so to keep bright the flame in
the center they hold aloft.
Takeo's are novel and delight-
ful Christmas Gifts. They are priced
from \$2.50 to \$10.00.

Table Scar's

Many combinations of rose, blue, gold and
other colors to be found on Bullock's Sixth
Floor. Scarves are trimmed with beautiful gold
fringe. These are
valuable for Christmas Giving. The values
of scarves of unusualness—priced from
\$2.50 to \$10.00.

Cushions

should play no little part in this Christmas Tide—
and Bullock's has delightful ones of many materials,
colors and sizes—at many prices; these are both
useful and ornamental Gifts—priced from \$5.00
to \$65.00.
—On Bullock's Sixth Floor one can find innum-
erable answers to one's Gift problems. Come and
see!

SOCIETY.
BY VIRGINIA WOODS.

A Brilliant Affair.
A fairland of flowers made a
gorgeous setting last evening for
the first formal dancing party given
by Mr. and Mrs. Lucien N.
Brunswig in honor of their daugh-
ter, Miss Marguerite Brunswig, at
their West Adams-street home, the
"Villa Margarita."

It marked one of the most bril-
liant gatherings chronicled in Los
Angeles recently. Five hundred in-
vitations were issued and beautiful
girls and young matrons in stunning
creations, dancing to the strains of
orchestral music, made a picture
not soon to be forgotten.

Gen. Robert Georges Nivelle,
former commander-in-chief of the
French army and one of the de-
fenders of Verdun, was a distin-
guished guest. He arrived in Los
Angeles at 5:30 o'clock last night, half an hour be-
fore the dance began. His accom-
panying party, which included the
French army, and Col. M. Buckley, U.S.A.,
who was commissioned by the Sec-
retary of War to accompany the
noted visitor, were guests also.

Lilies of the valley and orchids
were arranged in huge mound to
center the table in the dining-room,
where a buffet supper was served.
The reception hall was in gar-
shades of Scotch heather, mixed
with many sweet pea blooms in the
cane shade. Pink roses and sweet
peas adorned the music-room and
in the palm-room poinsettias were
used for ferns and bamboo and
rare potted plants, giving just a sug-
gestion of the Christmas holidays.

Mr. and Mrs. Brunswig were
Misses William A. Edwards, Gran-
ville MacGowan, Daniel Murphy,
Harrington Alfred de Kopp, Misses
William H. Workman, Jr., Wesley
Clark, George Kohn, Margaret
Kelcey, Carolina Winston, Cecile
McLaughlin, Mary O'Neill, Harvey
and Byrd Wallis, Florence McGarry
and Helen and Adelaide Dwyer.
Miss Josephine Ross and Miss
Rosario Moran and Mr. and Mrs.
Alexander Field of San Francisco
came on for the party. Mr. and
Mrs. Field are guests of Mrs. Mar-
shall Wellborn and they and Mrs.
Moran will remain here until after
Christmas.

Dinner Dance.
Mr. and Mrs. Hubert L. Eaton are
to host a dinner dance on
Monday evening, next, at the Cal-
ifornia Club in honor of Mr. and
Mrs. Snowden Hunt of Kansas City.
There are to be seventy guests.

College Girls Home.
A merry group of girls return-
ing home today from Mills College
to spend the holidays. The per-
sonnel includes Misses Margaret
Lyon, Ruth Collins, Katherine How-
ard, Gwendolyn Longyear, Mar-
garet Longyear, Virginia Desardoff,
Ruth Curran, Ruth Parmenter,
Anne Craig, Caroline Jennings,
Margaret Noe and Jane Adams.
Others are to follow in a few days.

Persons from Abroad.
Sir Karl and Lady Krundsen and
Miss E. H. Dixon of London are in
America making a four months'
tour and are now guests at the Ho-
tel Lexington on West Sixth street.
They are to tour the Pacific Coast.
Sir Karl was knighted by the Brit-
ish government for valuable service
in securing Norwegian ships for the
war.

Announcement
V. J. Stack, M.D.
Physician & Surgeon

The opening of his office in
229-210 Douglas Blvd., Los Angeles,
California, on Dec. 1st, 1920, and
practice will be limited to the
diagnosis and treatment of
Diseases of the Rectum and Colon—
that is, Hemorrhoids, Piles, Pro-
trusion, Stricture, Discharge, etc.
Also in Electrotherapy of such dis-
eases as Hysteria, Neurasthenia, Lun-
acy, Schizophrenia, Anemia and Chronic
Alcoholism, etc., to women.
Office Hours—10 to 4.

Admits Stealing
Cash; Wants to
Go Back Home.

L. A. Huey, who is wanted in
Gloucester, La., on a charge of the
embezzlement of funds that came
into his hands when he was acting
as postmaster at that place, was or-
dered removed to Louisiana for
trial by U. S. Commissioner Long
yesterday. Huey waived all prelimi-
naries and said he wanted to get
back to his old home as soon as pos-
sible.

Would Double Size
OF TOURIST CAMP.

The capacity of this automobile
tourist camp at Elysian Park is to
be doubled, if the recommendation
of the Board of Park Commis-
sioners is adopted by the City Council.
The board reports that the camp is
crowded to capacity at all times
and that during the five months it
has been in operation the city has
received a revenue of \$34,625.50, while the expenses of the
camp were but \$24,113.24.

The Finance Committee of the
City Council voted yesterday af-
ternoon to recommend the appropri-
ation necessary for the work.

IT'S EASY TO PUT ON FLESH

All you have to do if you are too thin and want to put on several pounds of solid "meat" is to take a few grains of blood-forming Phosphates with each meal. This builds up the nervous system, enriches the blood and thus enables the vital organs to assimilate the food-building, strength-making elements of your food which now largely go to waste. Folks who have tried it state they not only put on flesh but that it also almost invariably increases their strength, energy and endurance. You can get enough blood-forming Phosphates for a week's treatment of The Sun Drug Company or any other druggist for only 15¢ and try it uniformly successful that your druggist, a man you know, is authorized to refund your money if you don't like it. Better get a package today and begin to get stronger and healthier, as well as better looking.—(Advertisement.)

HOLIDAY STUNT STARTS TROUBLE

Pasadena Organizations Object to Expenditure.

Death Calls Crown City's First Physician.

Rotary Head Arranges for Big Convention.

PASADENA, Dec. 15.—Appropriation of \$500 from city funds for the illumination of the cedar trees on Santa Rosa avenue, Altadena, at Christmas time has stirred up a hornet's nest among many citizens. Who have denounced the stunt as "extravagance" and have suggested that the money might have been given to the poor.

"It is just a little piece of our national extravagance," said F. A. Hovey, a well-known citizen today. "But on with the dance, let joy be unconfined."

The Women's Union Label League of the city has filed a protest against the appropriation, citing the fact that the T.W.C.A. Home for the Aged, Boys' and Girls' Aid Society, Children's Training School and Pasadena University are all conducting campaigns for funds and could use some of the money to be expended on the Christmas trees.

DR. RADEBAUGH DIES.
Dr. John M. Radebaugh, said to have been the first physician to come to Pasadena for the practice of medicine, died this morning at Pasadena Hospital as a result of injuries received last week. He collapsed with an automobile driven by Maj. J. N. Shupe when crossing a blood clot was formed on his brain. Two years ago he fell and broke his collar bone and sustained a broken hip, while five years ago he suffered concussion of the brain in a fall from a car at Sierra Madre.

Dr. Radebaugh came to Pasadena thirty-nine years ago and had resided here ever since. He was born in Pennsylvania. The funeral will be held Friday afternoon at 3 o'clock at All Saints' Episcopal Church and will be conducted by Bishop J. H. Johnson, assisted by Rev. Leslie E. Learned and Rev. C. Frank Burt. Burial will be at Mountain View Cemetery.

ROTARIANS MAY COME.
Leslie Everts of San Diego, district governor of Rotary clubs, is here today to make tentative arrangements for the holding of the annual convention of the twenty-third district of Rotary clubs in Pasadena early in April. He conferred with members of the Pasadena Rotary Club on the subject. The twenty-third district embraces California, Arizona, Nevada and the Territory of Hawaii. There are now twenty-six Rotary clubs in the district as compared to sixteen

VETERAN EDITOR IS THROUGH WITH COPY.

HENRY G. TINSLEY DIES AT POMOONA HOME; VICTIM OF HEART TROUBLE.

POMOONA, Dec. 15.—Henry G. Tinsley, veteran Southern California newspaper publisher, died at his home, 175 East Holt avenue, this morning. His death followed a sudden attack of heart failure, which seized him late last night. He had been in poor health for several months.

Mr. Tinsley was 59 years of age and had lived in Pomona for nearly thirty years, having been editor and publisher of two of the city's newspapers, the Progress and the Review. He was a prominent member of the Southern California Editorial Association and since disposing of his local newspaper interests four years ago had been engaged in special newspaper writing for Southern California newspapers and had contributed articles to various magazines.

Mr. Tinsley had a wide reputation among newspaper men as a prolific writer and as an authority on Southern California history. He was a staunch Republican, a charter member of the Pomona Lodge of Elks, and known to all the older inhabitants of the valley.

Mr. Tinsley was born at Lyons, N. Y., in 1861. His father was editor and publisher of the Lyons Republican and it was on this paper that he received his first newspaper experience. After graduating from Cornell University, he went to New York City and was there for several years employed as a reporter on the New York Sun in the days

FAILS TO FALL FOR OLD-TIME SWINDLE.

EXCLUSIVE DISPATCH.
RIVERSIDE, Dec. 15.—Stating that he had a roll of greenbacks said to contain \$20,000 placed in his hands by an unidentified "easterner" a few days ago, but that the roll was immediately returned to the stranger, W. N. Phinney, an orange grower of 126 Mountain View avenue, today reported to the police his suspicions that the fellow was one of a pair of "bunko" men.

Phinney said he was first approached by a man who represented that he was looking for orange property. A second stranger who arrived a little later engaged them in conversation, opened up a value bagging with greenbacks and offered to let some money on a "three card monte" trick. With money advanced by the first stranger, the rancher won handsomely but was game enough to hand back the paper, which he regarded as "phony."

All F

Our Entire Lamps and V Offered at 25

Overcoats Reduced \$59.50

Robinson's Overcoats are made in styles of the cold without being heavy. And these cold-weather well-made—in styles of the busy man of affairs, athletic younger brother, college.

They were made Robinson's, which means excellence to quality and ing.

Models include straight-line Overcoats or self-collars in single-breasted effects; Ulster coats—half belted and belt; Swagger Overcoats—skirts—raglan, kimono sleeves, and Chester dress occasions.

The colors: Oxford gray, black and heathers—by the number in these wanted.

J. W. Robinson Co.

Seventh and Grand

All Furniture Reduced 25 Per Cent

Our Entire Stock of Furniture, Including Floor Lamps and Very Fine Hand-Made Furniture Being Offered at 25 Per Cent Off from Regular Prices.

Overcoats Reduced \$59.50

Robinson's Overcoats are of firm woven woollens—so they exclude the cold without being excessively heavy.

And these cold-weather coats are well made—in styles approved by the busy man of affairs and by his athletic younger brother, still in college.

They were made especially for Robinson's, which means strict adherence to quality and good tailoring.

Models include semi-fitted or straight-line Overcoats with velvet or self collars in single or double-breasted effects; Ulsters and Ulsterettes—half belted and all around belt; Swagger Overcoats with flaring skirts—raglan, kimono and set-in sleeves, and Chesterfields for all dress occasions.

The colors: Oxford gray, blue, brown, black and heather—by far the greater number in these wanted mixtures. To bring these Coats to a price level not known for months, great reductions were taken. At \$59.50 the values are overwhelming.

Men's Clothing Section—Near Hope Street Entrance—First Floor

Men's Suits Reduced \$39.50

When the average man buys a suit, he is sure about the lines he wants. He knows when the effect is good—when the suit has the swing and the efficient look which he desires.

But the average man is not so sure about fabrics. An apparently fine piece of woolen material may go to pieces in a short time.

So that it pays to have a reliable store say of a woolen suit. "This can be depended upon for service."

Robinson's gives this assurance in regard to these suits. They have been reduced to a very low figure—but they are all suits of pre-shrunk pure wool, and in late styles: good suits.

They were tailored to meet Robinson's 35 specifications.

The materials: Saxony, velour, worsteds, blue serge and herringbone.

The colors: Browns, blues, grays, greens and a few plain Oxfords. In sizes 35 to 44.

The price—\$39.50—remarkably low.

First Floor

Less Than Half Price Men's Silk Shirts \$16.35 Box of 3 at

War Tax 75c Extra

Silk Broadcloths—those heavy, firm quality Silks—in fact, the choice of all silk shirtings by most of the men—at \$16.35 for a box of three. That figures \$5.45 apiece—less than one-half the regular price—actually less than present cost of materials.

The patterns—narrow stripes in colors that are altogether unusual, though unpretentious. There are plain blue, gray and a splendid shade of beige. Sizes 14 to 16½.

Third Floor

Merchandise Orders

Merchandise Orders will be issued for any amount.

They may be secured near the Book Section on the First Floor.

If one is uncertain as to just what to get, a Merchandise Order solves every question.

The recipient may select his own gifts—in any section of the store—before Christmas or afterwards.

First Floor

Accommodation Desk

For the accommodation of our patrons, packages are being wrapped and tied for parcel post without charge. Parcels may be weighed, stamped and mailed here.

This desk is now located in the BASEMENT—near the elevators.

Sweaters and Motor Vests

Robinson's has expended a great deal of thought and energy in making its collection of Sweaters unique. It is unique in variety of weaves and colors, so that one may find here Sweaters that are different for holiday giving.

Some of these models are as soft as velvet. Scotland and England sent us them. The colors look delightfully "imported."

Brushed Wool Sweaters with and without collar. In light, medium and heavy weights. Plain colors and heathers. Light-weight Brushed Wool Models in pullover, V neck. Plain shades and color effects.

Imported Scotch Sweaters in camel's hair, alpaca, fine Shetland wool. Some are shirtings. These are the finest sweaters obtainable.

Slip-Overs in Shaker weaves, V or rough-neck. Plain and two-color effects. Knitted Motor Vests come in both domestic and imported wools, in plain and fancy weaves.

The Tradelsweater is of pure worsted, tightly woven, snug fitting. It is shown in all heather shades. The prices range from \$11.85 to \$32.50.

First Floor

PRIEST LOSES IN AUTO SUIT.

Must Pay Injured Man Though He Was Not in Car.

Four-Thousand-Dollar Award Surprises Attorney.

Victim of Crash Was Filling Tank With Gasoline.

(EXCLUSIVE DISPATCH.) EL CENTRO, Dec. 15.—After deliberating for one hour and thirty minutes, the jury in the case of L. A. Jackson, automobile dealer, against Father Gregory Ashé, rector of the Catholic Church, and P. J. Doland, returned a verdict in favor of the plaintiff, awarding him \$4000 damages as a result of an automobile accident which occurred Nov. 9, 1919. Judge Swing heard the case.

According to evidence introduced Mr. Doland was driving Father Ashé's car at the time and the priest was not an occupant of the machine. Mr. Jackson's car had run out of gasoline and he was in the rear of the machine filling the tank just after sundown when Mr. Doland drove into the automobile, crushing the plaintiff badly. He was in a hospital for a number of weeks.

At the time a brother was summoned from the East to the bedside of the injured man because of his critical condition.

The judgment received was a great deal more than was expected by the plaintiff, said M. W. Conkling, attorney, following the juror's verdict.

Attorney White of Los Angeles represented the defendants.

AUTOIST IS HELD UP BY FEMALE BANDIT.

POLICE FIND PEPPER IN MACHINE THINK GIRL TRIED TO KILL IT.

Armed with a heavy revolver and some red pepper, a well-dressed young woman early yesterday morning held up and robbed Richard E. Moelling, of 1444 Santa Monica Boulevard. According to Mr. Moelling's report she escaped with several diamond rings, his watch and a small sum of money.

Moelling's account to the police says the woman flagged his automobile as he turned from Pico street into Main street early yesterday morning. As soon as she brought the machine to a stop the female bandit drew a revolver and entered the automobile. She then ordered him to drive out of the city and robbed him.

Police who investigated found a quantity of red pepper was found on the floor of the automobile and it is thought by the officers that the lady bandit attempted to hurl it into her victim's eyes. Moelling was unable to give the officers a good description of the female robber.

BURY STATE OFFICER.

Office Closed for Day in Honor of Deputy Commissioner.

Funeral services for Herbert A. Cable, 51 years of age, deputy State Labor Commissioner, were held yesterday afternoon at the chapel of Pierce Brothers. The Christian Science burial service was read. In the morning was in Forest Lawn cemetery. The office of the State Labor Commission here was closed all day.

In addition to the relatives of Mr. Cable, many personal friends and representatives of city and State offices attended the funeral. The pallbearers, all connected with the State Bureau of Labor Statistics, were: George Gray of San Diego, Clyde Holbrook of Van Nuys, Harry Epstein, H. C. Hancock, Raymond Shively and Robert Catron of this city.

Mr. Cable died at his home, 4711 Gramercy place, last Sunday after an illness of several months. He leaves a widow, Bertha L. Cable, two sons, Arthur L. and John R., and his mother, Mrs. E. Kinschard of this city.

HORN FUNERAL TODAY.

Knights of Pythias to Conduct Last Rites for Private Detective.

Funeral services for Gustavus A. Horn, 3621 McClintock avenue, private detective who died at the California Hospital Tuesday after an illness of many months, will be conducted by Constable Lodge, No. 135, Knights of Pythias at the mortuary of Uter and Ruppel, 4234 Montana avenue, this afternoon at 2 o'clock.

Mr. Horn, who was born at St. Joseph, Mo., forty-one years ago, had spent the last fifteen years in Los Angeles, and until four years ago was assistant manager of the local branch of the W. J. Burns Detective Agency.

He leaves a widow, also his mother, Mrs. Johanna Horn; a brother, Carl F. Horn, and a sister, Mrs. W. D. Meyer, all of this city. Burial will be in Inglewood cemetery.

MINE FLEET TO SAIL.

Ten Vessels to Leave for Hawaii Early in January.

Ten vessels of the Pacific Fleet, comprising the mine force, will leave Los Angeles Harbor for the Hawaiian Islands on January 1. The destination of the mine force was given yesterday as Pearl Harbor. With the departure of this detachment and the remainder of the Pacific Fleet steaming toward Panama Bay for its mission with the Atlantic Fleet about the same time, only one small vessel will remain at this harbor.

The vessels that will make the trip to Pearl Harbor are the Baltimore, mine layer; Ludlow and Spruance, destroyers; Thrush, Sea Gull, Lapwing, Whippoorwill, Tanager, Pelican and Sanderling, mine sweepers.

RANCHER CANNOT PAY UP. K. Yoshimine, a rancher of San Diego county, has filed a petition in bankruptcy in the U. S. District court. He gives his debts as \$10,923.17, and his assets as \$1900.

WORTH ITS WEIGHT IN GOLD, SAYS SWOFFORD

Oakland Man Says Tanlac Has Put Him Back On Job After He Had To Give Up—Gains 18 Pounds.

"Before I got Tanlac I had to give up my position on account of ill health, but since taking the medicine I am back on the job every day feeling fine," said Edward J. Swofford, 2616 Grove St., Oakland California, recently.

"Yes, sir, Tanlac has not only relieved my suffering, but has actually built me up eighteen pounds in weight, and I consider every bottle I took has been worth its weight in gold to me."

"Last February I had a severe attack of influenza which left me weak as a kitten. I could scarcely eat anything, and my stomach distressed me terribly."

"After meals I had such awful cramping pains I would just double up like a jack-knife. I finally became almost afraid to eat, because I dreaded the suffering I knew so well would follow."

"I had rheumatism in my feet and legs so bad I could hardly walk at times. I was also troubled a great deal with backache, and finally got so bad I had to give up my position."

"Along about this time I began paying attention to Tanlac testimonials in the papers, and as some of my friends recommended it highly, I decided to try it out in my case."

"Well, Tanlac seemed to get at the bottom of my troubles to start with, for it built me right up. I have taken five bottles now, have a fine appetite, and eat anything I want without suffering the least bit from indigestion."

The rheumatic pains have disappeared from my limbs, my back never bothers me the least bit, and my strength and energy have come back to me so that I now feel like my old self. Tanlac is great, there's no getting around that fact."

Tanlac is sold in Los Angeles, Pasadena and San Diego by the Owl Drug Stores. A personal Tanlac representative is at their Fifth and Broadway Store afternoons.—(Advertisement.)

the joy of living at Verdugo Woodlands

—beautiful new homes for sale
—big villa sites \$1100 and up

Are you tired of fogs, dampness, smoke, noise, dust and all the other undesirable elements of the low, flat sections of the city? You'll find the very opposite at Verdugo Woodlands—a high, healthful altitude; pure, clean, ozone-filled air; inspiring natural scenery; the charm and beauty of the foothills, mountain, canyons, running brooks and grand old trees; the favorite sketching place of noted California landscape painters who strive to reproduce the wonderful coloring of this picturesque and historic spot—the home of the old Verdugo pioneers.

Verdugo Woodlands is not far-out "country property"—it is conveniently suburban to Los Angeles—a delightful 20-minute ride. It is within 5 minutes of high and grammar schools, stores, theaters, churches, etc.

The extensive residential development of Verdugo Woodlands will surprise you—go out and see it today. If you like the beautiful, the unusual, the picturesque—if you love the outdoors, the fragrance of the hills—if you want the real California—see Verdugo Woodlands.

Delightful Free Tours

Daily (Except Sunday and Monday) at 11 A. M.

A beautiful trip, which includes a complimentary Spanish luncheon on the porch of the historic original Verdugo Adobe homestead, which is about 115 years old. Come and be our guest for a day. Make reservations early, as accommodations are limited.

JAIL ONE WEEK; MARRIAGE NEXT

Girl Suspected of Burglary is
Now Happy Bride.

Surprises Disabled Veteran
Who Went to Her Aid.

Old Name Cleared, She Takes
New One in Hurry.

Mrs. Robert Morton,
Formerly Miss Bertha Rainear, and
her "big brother," Daniel Bacalaki,
a disabled veteran of the
World War.

Another chapter in the life of Miss Bertha Rainear and Daniel M. Bacalaki was finished yesterday, when Miss Rainear became the bride of Robert Morton of 161 East Fifth street. Mrs. Morton came into the limelight on the 7th inst., when she was arrested at Ventura and charged with suspicion of burglary. Through the efforts of Mr. Bacalaki the young woman was released, and he brought her to this city.

Mr. Bacalaki said that he and Mrs. Morton have been intimate friends for a long time, and that he has repeatedly told the girl that she should consider him only as a big brother. The news of the wedding came as a distinct surprise to him. Mr. Bacalaki declared yesterday. He said that he had no idea that the young woman was contemplating marriage. "I am glad she is married and I hope her life is a happy one," he stated.

At the time of the arrest of Miss Rainear in Ventura, Mr. Bacalaki's name was linked with hers because of a picture found at that time showing the two together. Later it was learned that Mr. Bacalaki, a veteran of the World War, was not in any way implicated.

Mr. Bacalaki is living at the Soldiers' Home at Sawtelle, having been invalided there because of injuries received in France. He is a Russian and a true soldier of fortune. He has fought in five wars and three revolutions, he says. "At all times for better civilization and the freedom of the people."

Lamanda Park Votes to Join With Pasadena.

Lamanda Park voted yesterday to be annexed to Pasadena. At the special election the voters were 455 in favor and 251 against annexation, a majority of 204. As a result of the election, the area in Lamanda Park, bounded on the north by the Santa Fe tracks, on the south by Blanche avenue and on the east by the wash, will be made a part of the municipality of Pasadena.

J. S. Mills was chairman of the annexation campaign committee. This is the third time Lamanda Park has voted on the proposition. At the two previous elections annexation failed to carry, so this time the markers eliminated the outside district of Lamanda Park, composed of small ranches.

TO FIGHT BLUE LAW.

Motion-Picture Directors to Discuss
Sunday Closing.

Decisive action to fight the blue law Sunday movement that is gaining headway in the East and South will be urged on the Motion-Picture Directors' Association at the meeting tonight in the Markham Building, Hollywood.

In the absence of Reginald Parker, Vice-President Frank Lloyd will preside. A message from the absent president condemning the proposed legislation that would place a Sunday ban on motion pictures, newspapers, sports and motoring, will be read.

William D. Taylor will advocate the affiliation of all motion-picture organizations in a protective body to combat legislation injurious to the industry. It is expected that the directors will head such an affiliation.

BOY FINDS EXPLOSIVE.

Scout Helps Police Move Grim
Cache to Police Station.

Fourteen sticks of dynamite, a number of caps and several feet of fuse were found yesterday by George Thompson, 12 years of age, a Boy Scout, near Edgemont Boulevard and Los Feliz Road. The boy reported the find to Chief of Police Pennington and in a big police automobile assisted in removing the dynamite to the East Side Police Station. Police detectives are investigating the find.

Foreman & Clark stand
and always will stand

Shoulder to Shoulder With the Public

The Foreman & Clark idea is "Hop over the fence, get on the public's side, stay there, and stand shoulder to shoulder with the men who buy clothes."

That simple creed has worked wonders. It has made us the largest retail clothiers in America (from a \$310.00 start, ten years ago.) It has built our annual sales up to \$10,000,000. It has given us an army of boosters numbering 300,000. Perhaps our greatest achievement is here in Los Angeles. Eleven years ago we opened our doors at 3rd and Main Sts.; five years later at 5th and Broadway. Today, these are two of the biggest and busiest stores in our entire chain of UPSTAIRS stores from Coast to Coast. Los Angeles men knew what they wanted and they proved it. They proved it in short order by making these the greatest clothing stores in Los Angeles. A tribute to Foreman & Clark value—a tribute to Los Angeles judgment. In appreciation of the way you men have taken Foreman & Clark into your hearts and your homes—and to demonstrate the difference between Foreman & Clark guaranteed all-wool clothing and the "sale" merchandise advertised elsewhere, we announce the greatest value-giving event Los Angeles has yet seen!

LOS ANGELES MEN, COME AND COMPARE!

Compare Foreman & Clark guaranteed all-wool clothes, garment for garment, fabric for fabric, line for line, and seam for seam, with ANY "sale" clothing in Los Angeles. The reasons why Foreman & Clark garments are so far ahead of comparison are these:

- 1—Ours are NOT picked-over stocks reduced for clearance.
- 2—They are the finest type of carefully tailored clothing DIRECT from our own wholesale tailor shops—FOREMAN & CLARK QUALITY CLEAR THROUGH.
- 3—Not one of these garments represents a purchase made before September 15. In other words, these stocks typify ELEVENTH HOUR buying in high quantities on a rock-bottom market, bringing you the full advantage of the present slump months ahead of the usual times.
- 4—Many of these garments were in New York less than TWO WEEKS ago, where our largest factories are located.
- 5—Not a penny of middleman's profits has been tacked on to any of these garments.
- 6—No downstairs rent has been added in — we save vast sums yearly by being UPSTAIRS.
- 7—Our average profit per garment is 56c—NOT \$10 OR \$15.

KNIGHTS GREET SUPREME CHIEF.

Columbus Order Gets Fifth Visit from Flaherty.

Man Honored by War Leaders Optimistic Over Future.

Public Reception to be Held in His Honor Tonight.

Hale and hearty at 48, James A. Flaherty of Philadelphia, Supreme Knight of the Knights of Columbus for the past ten years and the present official head of that order, was yesterday welcomed to this city by officers of the local council, No. 421, and a host of friends, upon his arrival from San Francisco.

He has been visiting the various councils of the Knights of Columbus and the vocational training schools recently established by the order in all of the larger towns and cities west of Philadelphia. Making Los Angeles the end of his westward journey, he will start for his home tomorrow, after a two-day visit in this city.

"This is my fifth visit to Los Angeles," he declared, "and like a kid I had to leave the best of the last."

OPTIMISTIC VISION.

Mr. Flaherty, who recently returned from Europe, where he was received by President Millerand of France and Marshal Joffre and Foch at the dedication of the statue of Lafayette at Metz, sees conditions in France and America with optimistic eyes.

"I see no reason for anyone to be pessimistic," he exclaimed. "The world is always getting younger, though maybe my hair may be a little grayer than it was the last time I was here, and there is always new life to replace the old. France is struggling as mightily to get back on a normal peace footing as she struggled to win the war. It is hard, but she is making progress. We have a little of the same thing in this country. There is reconstruction work to be done, of course, but everywhere I have been I find plenty of hands and minds to do it. France and America are not the French, will never suffer from want as long as there is the proper will power exerted."

WELCOMED TO CITY.

A large delegation headed by Joseph Scott, personal friend and greeted Supreme Knight Flaherty at the railroad station yesterday morning. Later in the day he held a number of informal conferences with officials of the Knights of Columbus, and last night he was guest at a banquet at the Roma Cafe. Later in the evening he attended a closed meeting of the council in the hall on South Flower street.

Believe Federal Tax Totals Will Top the Record.

As the time limit for the payment of the December installment of the income and other taxes expired at midnight last night, yesterday saw a seemingly unending line of taxpayers, and the mail received during the day indicated that citizens had in mind the fair warning of Internal Revenue Collector Carter that the barrier would fall as provided by the law.

It will be several days before the aggregate collections for the last quarter of the year are known, but Collector Carter expressed the belief yesterday that the total for the year will exceed that of 1934, when the grand total was about \$35,000,000.

Since last December there has been a general coming of the district for additional taxpayers, and the efforts of the field force have not been without effect, it is said. Thousands of dollars have been added to the tax rolls, and hundreds of thousands of dollars have been collected from taxpayers who thought they were fooling Uncle Sam.

TORPEDO PLANES OF NEW TYPE PROMISED.

TWO OF NAVY'S HUGE SHIPS WILL BE EXHIBITED AT LONG BEACH MEET.

Two of the huge Glenn Martin "torpedo planes," the most remarkable aircraft in the naval air service, are to be entered in the National Winter Air Tournament at Long Beach on the 25th, 26th and 27th inst., according to advice received yesterday by the Aero Club of Southern California.

One of the planes will take part in the ground show, while the other will give flying exhibitions. Eight of the Martins were recently received at the naval air station at San Diego for duty with the Pacific Fleet, and have created a sensation among fleet flying officers. The craft were designed by Donald Douglas, a Los Angeles man. Arrangements have also been completed for displaying the four navy flying boats which will be a feature of the ground show, and for the flight from San Diego of the dirigible B-10, which will perform in the final day's events.

Capt. Lowell S. Smith, one of the most experienced pilots in the Army air service, was yesterday assigned number one position in both the 100-mile scratch race, and the eighty-mile handicap event. Capt. Smith's entry is the first to be received. He will fly a German Fokker biplane, capable of attaining 150 miles an hour. Capt. Smith commands the Ninety-first Aero Squadron at Rockwell Field, holds the nonstop aerial record from San Francisco to San Diego, and figured prominently in the transcontinental races held last year.

BANK CASE EXPERT TO TAKE HAND.

Assigned to Investigate How Cinema Company Head Secured Cash.

Howard Rank, the bank expert who has been the representative of the government in a number of cases tried in the local Federal court involving banking and financial institutions, has been assigned by U. S. Atty. O'Connor to take the lead in the investigation of the connection of W. J. Conner, president of Master Pictures, Inc., with the National Bank and Trust Company of Pasadena. It is charged that Conner secured more than \$100,000 from that banking institution.

The charge has been made that Conner could not have secured the money without the assistance of someone in the bank, either writing, by or unwittingly, and it is to ascertain the truth of that statement that the examination will be held. The examination will be held at the home of Mr. Rank, who will begin the work within the next few days. Conner is still in the County Jail, unable to secure the bond for his release.

Seek Mother of Man Dying from Dose of Poison.

Police detectives yesterday afternoon began a search for Mrs. Jane Conner, who is the mother of the young man who is dying in the County Jail here, after taking a large amount of poison.

According to the police, Sauer came to this city from New York to meet his mother. The young man arrived and dependent because of his failure to locate her, he swallowed the poison. According to physicians, the young man cannot recover.

REPORT ON GODWILL TRIP TO MEXICO CITY.

Commerce Board Committee Says Land Has Peace; Oregon Praised.

Declaring that for the first time in nine years Mexico is wholly at peace, hailing President Oregon as the man of the hour and urging that every effort be made to establish helpful relations between the southern republic and Los Angeles, the committee appointed to report on the god, will excursion to Mexico City submitted its report to the directors of the Chamber of Commerce yesterday.

After telling of the continuous series of entertainments and excursions provided for the benefit of the visitors by the Mexican government, the report says "A new era is dawning in Mexico. The past decade will, we believe, see great progress and development in our neighboring republic. President Oregon appears to be the man of the hour in Mexico. He has apparently won the support of all elements, inviting hope and optimism in the future where there was suspicion and mistrust."

The Angelenos note that a new element, composed of young, virile men, largely from the west coast, is in control and has made a good start in rehabilitating the country. "Merchants are beginning to establish trade relations, finances bid fair to become more sound, mines are reopening and industry is taking on a new impetus," the report says.

TO DISCUSS NEW LAWS.

Schedule Made Up for Hearings at Legislative Conference.

Representatives of eighteen different organizations and interests will be heard today at the legislative conference which will be held in the directors' room at the Chamber of Commerce. The tentative program has been made up on the following schedule:

At 10 a. m., Department of Agriculture of California; 10:30 a. m., agricultural legislative committee; 10:45 a. m., Van Nuys Chamber of Commerce; 11 a. m., Federation of Chiropodists of California; 11:15 a. m., Federation of Women's Clubs; 11:30 a. m., Cattlemen's Association; 12 noon, Laundry Owners' Association; 12:15 p. m., San Pedro Chamber of Commerce.

At 2 p. m., C. H. Barlow; 2:15 p. m., Merchants' and Manufacturers' Association; 2:30 p. m., University of California, Southern Branch; 2:45 p. m., Women's Legislative Council of California; 3 p. m., Municipal League; 3:15 p. m., Norwalk State Hospital; 4:30 p. m., California State Board of Architecture; 4:45 p. m., grand jury; 4 p. m., League of California Municipalities; 4:15 p. m., State Water Commission.

ADOPT DOORSTEP WAIF.

Santa Monica Couple Give Name to Unidentified Mother's Boy.

Leonard Raymond De Fries, seven months old, was adopted by Judge Reeve's court yesterday by Leonard and Beulah De Fries, proprietors of the Santa Monica Hotel, Santa Monica.

The child came to the De Fries home under pathetic circumstances three months ago. The mother of Leonard, whose identity has not been discovered, left the babe on the doorstep of the De Fries with a note saying: "Keep him as your own."

The date of Leonard's birth was given in the note. The De Fries took the child in and learned to love him. Attorney Orin Jean Shonts represented the petitioners in court.

BONDS AND CASH STOLEN.

Passing burglars early yesterday afternoon ransacked the room of Mrs. Louise Maddox in a hotel on South Grand avenue and escaped with \$150 in Liberty Bonds and a small amount of cash. Mrs. Maddox discovered her loss some time later and reported to the police.

URGES FIGHT ON JAPANESE.

In a telegram addressed to Phillip Tindall, Washington State's commander of the American Legion, Buron R. Pitts, department commander for California, yesterday strongly urged that the Washington organization support the anti-Japanese bill proposed in that State.

In his telegram Commander Pitts said: "I am informed an anti-Japanese land bill, similar to that passed in this State, is now before the people of Washington for approval. The comrades of California are looking to our comrades of Washington to bear us out in our emphatic stand in this State against the Japanese. We respectfully urge that the Washington posts do everything possible to secure passage of the land bill in order that the Legion in the West can present a united front against the monopoly of farm land by Japanese. We presented a solid front in Cleveland; let us stand united here. With best wishes for success of your policy in this regard, from comrades of California."

Commander Pitts will leave this city tomorrow night for Sacramento, where he will confer with John B. Chambers, chairman of the State Executive Committee of the Japanese Exclusion League. Mr. Pitts is a member of that committee and chair-

man of the campaign committee. He will address a mass meeting at Sacramento Saturday night.

Commander Pitts will also lay plans for the introduction of several bills in the State Legislature referring to land and to the use of foreign languages in public meetings. It is urged that only English be permitted in public meetings and that a printed translation be made of all foreign-language newspapers published in the State.

HOLD FUNERAL TODAY OF RUBBER SECRETARY.

Funeral services will be held at 2 p. m. today at the Dutch undertaking rooms, 842 South Figueroa street, for Robert H. McDowell, 43 years of age, secretary of the Rubber Club of Los Angeles, who died suddenly Monday of heart trouble at his home, 1254 South Catalina street. Dr. J. Whitcomb Brougher will officiate.

Mr. McDowell was formerly associated with the Better American Federation, chairman of the State Executive Committee of the Japanese Exclusion League. Mr. Pitts is a member of that committee and chair-

man of the campaign committee. He will address a mass meeting at Sacramento Saturday night.

Commander Pitts will also lay plans for the introduction of several bills in the State Legislature referring to land and to the use of foreign languages in public meetings. It is urged that only English be permitted in public meetings and that a printed translation be made of all foreign-language newspapers published in the State.

CHINATOWN SQUAD GETS NEW CHIEF.

Sergt. McIntosh is Assigned to Detective Bureau; White Takes Vacated Post.

Police Detective Sergeant McIntosh, who bears the unique distinction of having commanded the "Chinatown Squad" longer than any other man in the history of the Police Department, at his own request, was transferred yesterday by Chief Pendegast and assigned to duty in the detective bureau. Police Sergeant White was given command of the Chinatown detail.

Detective McIntosh was placed in command in Chinatown when former Chief Home first took office and he remained on that difficult duty continually until yesterday. Police records show that during the time he commanded the oriental squad, by the force of his own efforts he prevented various Chinese tongs from declaring war on each other.

and also broke up gambling in his district. He also stopped the traffic in drugs in Chinatown—the first time that this feat was accomplished by the police.

Sergt. McIntosh requested a transfer many months ago and acting upon the theory that reasonable requests by officers should be granted, Chief Pendegast effected the change yesterday.

ADD TO WHISKY FUND.

Man Caught with Many Half Pints Pleads Guilty and Pays Up.

J. M. Buck contributed \$500 to the whisky fund in U. S. District Judge Trippett's court on Tuesday, following his plea of guilty of violation of the Volstead Act.

Buck and a companion, T. M. Jacobs, were caught in an automobile in the vicinity of Campo, with 379 half-pint bottles of whisky that they had brought across the Mexican boundary line.

The case against Jacobs was dismissed, it appearing that he had sold the machine to Buck and was going along to try to collect his money for the machine, not knowing what was in it.

and also broke up gambling in his district. He also stopped the traffic in drugs in Chinatown—the first time that this feat was accomplished by the police.

Sergt. McIntosh requested a transfer many months ago and acting upon the theory that reasonable requests by officers should be granted, Chief Pendegast effected the change yesterday.

THE NEW.

IN STORES AND HOMES.

NOVELTIES, IDEAS AND PRACTICAL SUGGESTIONS.

By Olive Gray.

Up-to-Date:

The slim little evening frock of silk or satin having an outstanding "aura" of tulle in the same or a contrasting color.

The cape, incorporated with the dress, with the coat, with the suit has held its place in the realm of fashion, whether the fabric be thick or thin, formally dressy or sportily innocent.

A new blouse of black velvet, coming slightly below the waist line and having an immense ruche of white chiffon, finished with a big bow at the waist. Underneath of the chiffon also are used.

Now is the Time to Buy:

Slips for whatever purpose. For frocks, for lingerie, for negligees, in crepes, de chine and georgette, for summer wear and these are a predicted feature of the forthcoming season, prices are as low as they are likely to go, even after the holidays as you will agree, if you can over the stock offered in that great sale this week.

The gift article of furniture. Not in years has it been so altogether feasible to select an odd piece for presentation, since "odds" are not so much in the picture as are groupings related to color, tone or usefulness.

"Candy, Candy, Candy."

If you have asked a child what she expects to find under the Christmas tree, she will first name candy; then she may enumerate her favorites in toys and almost invariably he will go back to candy and, however many articles she may name, candy completes the roll. And we all are children, when it comes to Christmas wishing. Candy, candy, candy. There is never an end to our candy wishing for the great holiday. This season, after rather of a candy drought, the sweet is more than ever available. By the way, a new and quite Parisian confectionery has blossomed into being. Last Christmas or rather one long known has blossomed into new and dreamed perfection, the introduction of marvellously ingenious compounds of flavors, fruits and crushes. For is all the world within, delectable though the taste may be, for the exterior of those confections embodies almost artistry. The first appeal, to the eye, is adequately supplemented by the satisfaction of the palate.

What Newest Blossom.

From candy to flowers is by no means a far cry and there is a novel link in the introduction of that pink polka-dot for Christmas time and the decorations of some of those candies of which I have been telling. Candied did I say? They are rather super-cakes, as the flower is a super-polka-dot. What is not a clever idea of that leading florist, to introduce a pink Christmas flower for California? I always think of Southern California in terms of rose. I would not be surprised if we were to substitute for carnations the color of the queenly flower as a Christmas symbol.

The Golden Gift.

That leading jewelry house on Broadway has done that very thing in devoting an entire department to gifts for men. That women recognize the helplessness of this arrangement is proven by the way it is patronized. A sweep of the eye along the glittering cases shows an array of gifts golden, silver and platinum such as probably one has never seen before. Certainly it is that many of the articles beautiful and useful did not see the light until the present season. 'Tis present season, I mean. There are gifts ranging in price from those sought by the man for the feminine purse to those worthy for the man or organization seeking the article of practically unlimited cost as a Christmas souvenir. An outstanding fact here is that whatever bears the stamp of approval from this leading house, forthwith is known as correct and in the latest taste.

"Pungle" Up!

I have had a letter from a man—a very clever man, I am sure—telling why I do not write of more articles for men. "We pungle up and buy everything you tell about for our wives," he writes; "and now we would like to have you tempt them even as we are tempted."

Woody Ones.

A Christmas novelty which will be appreciated for giving is that set of wooden napkin rings, each with a dainty hand-painted face and all neatly housed in a pretty box. With the revival of the old-time modes in tableware, the napkin ring has again come in to use and Mrs. La Mode has something new to present, as is usual with her when an old favorite returns.

If He Smokes.

There are so many hideous smokers' appliances, that it is a real joy to see something truly beautiful in this line. In that leading jewelry store there are sets consisting of crystal trays with bowls of various sizes and depths for the mysterious uses known to devotees of the god-like nicotine. The crystal is edged with bands of enamel in lovely shades—turquoise, rose, lavender. To my utterer eye, such a gift would be most inviting for the man, for the reason that I would—soon after the holidays—steal it, place by piece, and put it to feminine use, for jewelry, for the dressing table, possibly to hold flowers upon the tea table. The really thoughtful woman should always make gifts to the man with a view to future usefulness of those gifts within her own regime.

The Gifts of La Mode.

Loose veils fall below the waist. Blouses favor the kimono sleeve. Coat belts are made of the fabric. The short box coat is very effective.

The flying panel is having a great vogue. A wide stripe effects will be popular.

The gown skirt is a new skirt characteristic.

Solid embroidery is used on women's dresses.

Chinese and peasant embroideries are very popular.

The wide Roumanian sleeve is most fashionable.

The overskirt is often slit, to form loose panels.

Some new coats show cuts of fur to the elbows.

Paris is pushing the cause of the circular skirt.

Paris trims some broadcated evening gowns with fur.

The sleeve must at least be three-quarter length.

Many new models are made on severe, military lines.

A gown of a soft claret tone is embroidered in green.

Even bathing slippers will have the popular ankle-strap.

Paris favors the long, narrow muff with gathered ends.

Quills of patent leather oiled and kid are used on hats.

The Russian blouse effect is seen in many wraps and dresses.

Turbans are trimmed with bright colored wooden beads.

Black satin frocks are trimmed with appliques of colored silk.

Long, tulle blouses are trimmed with black embroidered silk braid.

RIOT-CALL GUNS GONE: ROW BREWS.

Count of Sheriff's Rifles Follows Duck-Hunting Tale to Supervisor Head.

Reports coming to Chairman Dodge of the Board of Supervisors that hunters were using county Winchester for shooting ducks resulted in a man being sent to the arsenal in the Sheriff's office to take account of the guns stored there for riot calls. The inventory showed only 116 guns in the arsenal, whereas there should have been 135.

Sheriff Cline said he could have the others back in several days, and did recover eleven guns. This left nine unaccounted for. The guns, 30-30, are worth \$19 each. If the total of 136 guns is not soon reported back in the arsenal, Chairman Dodge states that he will make a demand on the Sheriff for \$270.

Farewell Note Ranks as Will of Dead Woman.

Judge Myers yesterday approved the decree of distribution of the \$50,000 estate of Mrs. Annie O. Keyser, whose body was found in the Hudson River in June, 1913.

The letter was dated January, 1918. A number of bequests were made. Two nurses living in the East were bequeathed the interest on \$20,000. Ralph and E. Opatky, brothers of Mrs. Keyser, beneficiaries, submitted the will for a decision as to its validity. It was admitted to probate.

FOUND DYING ON FLOOR OF OWN OFFICE.

Physician Fails to Rally at Hospital; Cause of His Condition is Mystery.

Dr. Charles E. Holgate, 41 years of age, of 1662 Laguna street, who was found unconscious in his office at 233 I. W. Hellman Building early yesterday morning, died in the Receiving Hospital about three hours later. Surgeons who battled for his life to the last, stated that they were unable to learn the cause of his death.

Dr. Holgate was discovered by an employee of the building lying unconscious on the floor of his office. At the Receiving Hospital, a bruise on his temple at first gave rise to a theory that he had been attacked by bandits. Later it was surmised that he had struck his head on his desk when he fainted. Detectives who investigated the case learned that Dr. Holgate was alone when he was stricken.

His body was removed to the Overholster undertaking establishment.

Dr. Holgate, a well-known surgeon, was a prominent Knight Templar and Shriner and a member of the American Legion and of the County Medical Society. He was married about a year ago to Madeline Rogers.

MUST GET HOME EARLY.

Probation Terms Also Forbid Man "Keeping Company" for Time.

Jack Gleiser, who was granted probation by Judge McCormick, had a straight and narrow path laid out for him by the court yesterday. He was convicted of an attack on Pearl Kelley, 14 years old.

He must be at the home of his parents by 9 o'clock each evening; he must work steadily; must keep away from questionable companions and before he can keep company with any girl he must first obtain the consent of his probation officer. A violation of the terms of his probation will make him eligible for the penitentiary.

GLITTERING AUTOMOBILE CREATIONS ATTRACT THOUSANDS TO SALON.

Features of Interest at the Auto Show

By GALE.

ENTHUSIASM IN MOTOR DISPLAY.

Factory Officials Impressed With Wide Interest Here.

Custom-Built Affairs Show Class of Local Builders.

Rugged LaFayette Chassis Draws a Steady Crowd.

That interest in motor cars and everything connected with them is right up to the top notch in Southern California has been pretty thoroughly demonstrated by attendance so far this week at the Auto Show. From all over the Southwest and in fact from all parts of the country, people have flocked to Los Angeles to get a glimpse at the latest styles in automobiles. And all visitors have left the building declaring that the present show has all past efforts faring for help.

Especially particularly were impressed by the amount of interest evinced in the motor car salon. Many factory officials had come out from snow-bound cities where automobiles didn't mean very much in the average person's life just at that time and were decidedly surprised at the enthusiasm with which Los Angeles turned out to see the things on wheels.

All of these officials are trying to beat each other to it in declaring that Southern California is rapidly becoming the motor car center of the world, so far as using 'em is concerned, at least. And in many lines Los Angeles is setting the pace for the factories themselves.

Scattered throughout the various exhibits are samples of the finest coach-building in the country—done in Los Angeles. In fact special jobs are now quite the common thing and it takes an original designer to hatch up anything in the way of a motor car body that will draw gasps from the community. In many factories, ideas which originated in local body-building plants are being taken up and used as standard features of new models.

One of the most awe-inspiring exhibits at the show this year is the new LaFayette chassis on display in the Troy Motor Sales Company's booth. Many people had been the LaFayette, chasing around the street, but few, so far, had been given a chance to look over the inner workings.

The tremendous size of the power plant immediately attracts attention. In fact, the whole chassis is built along almost brutal lines. It impresses the casual spectator as being able to go anywhere and withstand anything and to keep on doing it for an indefinite time.

The finished models, however, are a marvel of grace and beauty and few cars in the show can keep pace with the LaFayette sedan.

Harris Hanabusa certainly spent a large collection of time, pains and money doling up one of the latest things in the Apperson line. This is a touring car model which has been

(Continued on Third Page.)

Overland Sales Chief Eyes the Motor Exhibits.

A. C. Barber, general sales manager of the Willys-Overland Company, and one of the biggest sales executives in the United States, was an interested visitor at the Los Angeles Auto Show today. Mr. Barber was accompanied to Los Angeles from San Francisco by Frank C. Rizzo, head of the Willys-Overland Pacific Company. The two executives are to be guests of honor at a luncheon this noon at the Athletic Club, which will be attended by Willys-Overland dealers from all over Southern California. As former sales manager of the Moine Plow Company, Mr. Barber is a nationally known sales executive. He was highly pleased with the Los Angeles motor exhibit, commenting especially upon the attractive decorative scheme and the unusual number of specially painted and finished cars.

VISITOR IS DAZZLED, THEN TOTALLY BLINDED BY CARS AT MOTOR SALON.

Makes You Feel Like a Tramp Standing in Front of the Ritz-Carlton Picking Your Teeth to See All These High-Powered Creations at Los Angeles' Ninth Annual Auto Show.

BY HARRY A. WILLIAMS.

To visit the Auto Show gives you the same kind of a thrill that it does a tramp to stand in front of the Ritz-Carlton and pick his teeth. Or if a lady one might liken the visitor to September Morn standing in front of the show window of a cloak house on a wild and wintry night without any money, and no pocket to carry it in if she had.

QUITE DIFFERENT.

Of course, it was different with the Bullen, Mazuma and the Grotz families. They had the kais, and therefore got no thrill. They don't get as much excitement out of buying a two-story car with plate-glass windows and southern exposure as I would out of closing a deal for a ham sandwich.

One is at first dazzled by the sheen of the show, and this is generally followed by total blindness because there are so many cars calculated to put your eye out.

Of course, there are cheaper cars, cars that anybody can afford if they have the money, but in their artistic and elegant setting they all look like a million medallions.

FILLED WITH PRIDE.

After an hour in the show you emerge filled with pride and world-

ly ambition, and refuse to speak to your own silver in public.

However, beauty and luxury, these fashion plates of motordom, not alone are reflected in the show. The useful, square-faced truck has horns in, suggesting a work horse in the drawing-room.

Shrew-faced salesmen with bright thoughts stand ready to tell you what it is all about, and you leave all saturated with complex knowledge for use in the family garage. In a way it is an education. You learn a lot of things which you can never hope to understand.

One salesman, whose specialty had once been trucks, was showing a stout lady a delicate sedan with spider-like wheels.

"Why, madam," he said enthusiastically, lapsing back into the vernacular of his truck days, "you can always depend on this machine. It has a guaranteed carrying capacity of ten tons. You—"

But the stout lady had turned her ample back and was on her way. As far as known this is the only serious accident since the show opened.

Some of the cars shown have higher lines than former, and the price conforms with the lines. Others have lines, but the prices do not follow the line.

But they are no higher in proportion than other things about town, including the average skirt.

The revue covers two stories with salesmen and demonstrators on each floor, but there are not as many second-story workers as there are on the ground level.

Visitors are provided with a map showing the arrangement of the display and the location of each make. This prevents any eager customer from doubling on his tracks and buying the same car twice.

The car of today bears little resemblance to the tarbushed scooters of a few years ago, which had a coffee mill for a motor and complained bitterly if compelled to do more than six miles an hour.

LOTS OF STUFF.

The modern automobile has seventeen windshields, eleven coats of varnish, thermometer for taking the temperature of the baby, steam heat for grandfather, a combined cigar and cigarette lighter for father and mother, an electric hair curler for daughter, a suspended sentence for speeding for son, a dumb waiter, a duplex folding bed, a medicine chest, a map of the world, shower bath, placida, traveling library, a family flask and a family Bible, and a horn that will play the "Star Spangled Banner." These things explain why so many families leave home.

Additional merchandise and fixtures can be had by putting in application to the obliging dealer.

Several of the machines have been taken apart so that prospective customers can see what makes them tick.

Thus you can stand bowed in profound thought and study the structure of an automobile all the way from its ribs to its spinal column.

A GREAT IDEA.

One has a glass front radiator. This is a grand idea. If anything goes wrong with any of the vital organs, it isn't necessary to give the machine an anesthetic before cutting into it. You can simply stand around with your hands in your pockets and diagnose the trouble through the front window of the radiator.

Perfection seems to have been reached in the automobile of today. A lady can see her reflection in the compass good enough to powder her nose. Of course, if the compass is dusty, it may be necessary for her to dust it off before dusting her nose.

ANCIENT RELIC.

An interesting reminder of the past is a stage coach set apart in a quiet corner where it won't be disturbed.

(Continued on Second Page.)

OWEN
Magnetic

THE 1921 Owen Magnetic in both open and enclosed models will be included in our exhibit at the Auto Show. Do not overlook this opportunity to become acquainted with the latest and finest types of the "car of a thousand speeds."

Chassis will likewise be available for early delivery. See our suggestions for custom-built bodies specially adapted to the Owen chassis.

Gaffney Motor Sales Co.
876 South Alvarado St.
Phone 52573

The Car of a thousand speeds

RECORD CROWDS SEE AUTO SHOW.

(Continued from First Page.)

gathering certainly deserve to be remembered. A Standard Eight engine mounted squarely in the corner of their exhibit on two aisles downstairs comes in for a lot of attention from the aviators and motor experts who frequent the show. This power plant which pulled a car over the steepest hill in San Francisco is one that is extremely interesting to those who like to delve into the mechanics of the thing.

Between the crowd that tramples all over the Gardner exhibit to get the souvenir toy balloons and the crowd that tramples all over it while listening to the fascinating strains of music from the orchestra just across the aisle it's a wonder that there are any Gardner's left. However, when they aren't giving away balloons and when the orchestra isn't playing the crowd stays there just the same and looks the new light car over with much interest and enthusiasm.

Babe Doyle is very much annoyed at the action of the show committee in moving Isabel Chandler's six to all the sundry and usually has

Historic Coach Makes Hit at Show.

Above, Chapin sketch of old Banning coach and six at Catalina which made possible the securing of the Concord coach for the Auto Show. Center, a close-up of the coach that was famous in early California history, and Capt. William Banning on box of the coach. Below, one of the special Don Lee custom-built Cadillacs, which certainly portrays the advance that has been made in transportation methods during the past few decades.

luscious lady musicians away from the stand next to the Scripps-Booth space in the show. Now he's busy showing the three nifty Scripps models. The little Cleveland chassis certainly is claiming more than its

share of the attention of the crowds that surge through the lower floor of the show. The little brother of the Chandler certainly has a sturdy and high-class set of "works" as well as beautiful body lines and the salesman are kept busy telling folks all about the engine, etc.

Interest in the Franklin exhibit seems to be pretty well split up, some folks eyeing the ancient old contraption that crossed the continent and held the record for many years while others spend lots of time around the 1921 chassis with its interesting frame of wood. The stock models likewise come in for a lot of attention from the crowds.

A little groovy Essex landau is making a terrific hit because of its exceptionally modish lines. This little two, or maybe three-passenger open and closed model seems to be sitting almost on the ground, as it is easy for an ordinary tall person to gaze over the top of it and at the same time it has quite as much as the average road clearance.

The big new Paige Larchmont seems to set quite as much of a crowd when stuck in the middle of a hundred other cars at the auto show as it did when it was all by itself at the private show staged a few weeks ago. It certainly has distinctive and attractive lines and in addition is said to be one of the most powerful models on the floor.

There are a couple of nifty looking Westcott models over on the Orange-street side of the lower floor that have a business-like and comfortable appearance. One of them, with a sliding window effect in a special top looks like just the kind of a car a man would want on one of those days during the winter when it's liable to bust out and rain to beat the band while he's taking his best girl out for a ride.

ALL DAZZLED AT AUTO SALON.

(Continued from First Page.)

disturbed. Near it is a bottle of 12-cent gasoline, also a relic of a dead and inglorious past. Tires and other accessories suitable for hanging on automobiles are displayed in a manner to arouse the human avarice.

There is one set of tires shown which are large enough to equip the wheels of an elephant's go-cart. Percussion caps have been removed from all tires, which makes them perfectly safe.

LOTUS OF SPEED. It is a great show with lots of speed, and at a late hour last night was one lap ahead of the Beverly record with not a traffic cop in sight.

After passing an hour in it you go home and dream that your head is filled with full floating rear axles, and that you are a king on a revolving throne with a steering wheel and a coutout.

An automobile today doesn't cost so much, but it's the things that you hang on it. You can hang more things on an automobile than you can on a hat rack or a clothes line. But you hang less on your wife than you ever did before, so it all even up in the long run.

McCALL EYES THE MOTOR CAR SALON.

F. E. McCall, sales manager for the Walker Vehicle Company, has arrived from the north to see the Auto Show and also to visit J. Jerome Canavan, factory representative of the same company.

Mr. McCall has attended the all-Pacific exhibit of ice cream supply men and was fortunate enough to make connections with the Auto Show here.

Mr. McCall is a firm believer in electrical transportation, and states that the Walker electrical trucks will render from ten to twenty years' profitable service.

A RELIC OF OLDEN DAYS.

Visitors at Motor Show All Interested in Famous Banning Stage Coach.

A glimpse into the past, the romantic days of early California, is given in the Cadillac booth at the Ninth Annual Auto Show. Here, side by side, with a powerful limousine of the present day, may be seen a perfect type of a six-horse Concord coach of the early '60s, the exhibit of the Santa Catalina Island Company.

HARD SERVICE. This beautiful coach was turned out in November, 1874, by the Abbot-Downing establishment of Concord, N. H., and has seen more than thirty years of hard service. The last coach of this type to be manufactured, it had been treasured for the past twenty years as an almost priceless relic by the famous New Hampshire firm, which is now engaged in the manufacture of auto trucks. The coach is an exact duplicate of the coaches used by the Banning family for nearly 100 years in their transportation business of the Southland and at Catalina.

The coach was brought from New York to Wilmington on the steamer Avon early this year and has been restored to its original beauty by William Muller of San Pedro, who faithfully followed the Chapin sketch of the old Banning coach. The decorating was done by A. C. Brundage and the carved leather "boot" and trunk holder were furnished by Brydon Brothers of this city, who for many years made the stage harness for the Banning lines.

ALMOST PERFECT. The framing of a Concord coach is declared by experts to be remarkably perfect and substantial. Of all wooden construction, comparatively little iron is used. The heavy leather straps underneath the coach form the shock absorbers.

In making it possible to view a Concord coach today in all its original splendor of crimson and gold, its rich red plush upholstery, gold braid, carved leather and yellow running gears, Capt. Banning has brought a beautiful bit of the past to the thousands of visitors who throng the Los Angeles Auto Show of 1920. It was nearly 100 years ago when Gen. Phineas Banning founded what is now known as the Wilmington Transportation Company and owned and operated stage lines between Los Angeles, the harbor, San Bernardino and the interior. He was worth considerably more than a million, owned so many hundreds of blooded mustangs that he could not count them, several coast vessels and the finest house in all California, yet he often got on the box of one of his stages when there was a distinguished party to carry.

WALKER Electric Trucks A Fact

Business men seldom make the same mistake twice. 85 per cent of Walker Trucks are repeat orders, mostly from concerns owning from five to 250 Walkers.

"BEST FOR

THE WEST

The Country's Best Thought, Practice and Experience Crystallized in Moreland Trucks

For ten years Moreland trucks have been made by men of the widest, most thorough training in the great Eastern technical schools and manufacturing plants.

These men have realized the limitless possibilities of this future of the vast, rich territory of this western country. They have come here to devote their brains, their energies, their training and experience to the development of this land of their adoption.

These men have put their shoulders to the wheel. They have fought home prejudice in some cases, bitter competition from the long established Eastern centers of manufacturing. But they have carried through.

They have made this plant grow in ten years from a little tin shack to the splendid new \$2,000,000 Burbank plant. In the course of this growth they have turned over millions of dollars for home circulation. They have brought millions in from foreign countries, and other sections of our country, to help in the increase of local wealth.

They have helped in the birth and development of many small industries and, by their demonstration of the manufacturing possibilities of the West, have attracted many new industries.

And all the time they have been building more and better trucks until they have reached a high state of perfection and adaptability to the demands made upon them, surpassed by none.

Examine THE MORELANDS at The Auto Show Exhibit

Note the exclusive, distinctive Moreland features. Note carefully the parts shown on the big parts board. Note the flashing map indicating the service stations where \$1,000,000 worth of parts are constantly available. Think what this in itself means to the truck owner.

TRUCK EXHIBITS AT SHOW.

Huge Commercial Vehicles Rival Passenger Car Displays at Motor Salon.

Closely rivaling the exhibits of handsome motor cars at Los Angeles' ninth annual automobile show are the motor truck displays. Everything in the commercial vehicle line from the biggest Mack to the smallest Ford gre on exhibition and are drawing crowds every day of the show.

Particular pains have been taken by many of the truck exhibitors to arrange artistic and instructive booths and the average visitor can get a very thorough idea of truck values and truck operation from the various displays.

Following are the models on exhibition in each of the commercial vehicle booths:

Moreland Motor Truck Company, Moreland.
Being home products, the three Moreland trucks exhibited at the show are naturally pointed to with great pride by the show visitors. A one-ton model, a one and one-half-ton model and a four-ton model are on display. The Moreland trucks are splendid illustrations of the fact that Los Angeles can produce just as good automobiles or trucks as Detroit, any day.

Autocar Sales and Service Company, Autocar.

The Autocar Sales and Service Company is showing a large heavy-duty truck and lighter Autocar model, rated as a "one-and-a-half to two-ton" truck. Both are very substantial-looking commercial vehicles.

William E. Bush, Pierce-Arrow.
The widely heralded dual valves, a feature of the Pierce-Arrow truck motor, have created a great deal of interest in this exhibit. Two Pierce-Arrow trucks are shown by William E. Bush, a five-ton model and a three and one-half-ton model.

Harold L. Arnold, Maxwell.
Harold L. Arnold has confined his Maxwell truck exhibit to one model, but it is nevertheless a display not to be overlooked. The Maxwell haulage unit shown has a carrying capacity of one and one-half tons.

White Auto Company, White.
The White trucks are represented by one of the big White buses used by the Motor Transit Company in their lines which operate all over California. A three-ton and a two-ton model are also shown.

Mack-International Motor Truck Corporation, Mack.

A five-ton Mack chassis, laid on its side and operated by an electric motor, so that every working part and its function is clearly visible, makes a very interesting exhibit. A five-ton Bulldog model chassis and a two-ton AB model chassis (worm drive) are also exhibited, as well as a comprehensive exhibition of parts for Mack trucks.

Chevrolet Motor Company, Chevrolet.

Two different body styles are shown of the Chevrolet one-ton worm drive truck, as well as two different models of the Chevrolet light delivery wagon. The latter is mounted on the well-known Four-Ninety chassis. A chassis of the one-ton worm drive truck completes an interesting commercial car exhibit.

Albertson Motor Car Company, Dodge.

The Dodge Brothers business cars shown by the Albertson Motor Car Company are a center of interest for merchants visitors to the show. Two models with panel bodies, and another with screen sides are shown, while a commercial chassis reveals how well this car is adapted to business service.

Western Motors Company, Kissel.

Three exceedingly sturdy haulage units are to be found in the Kissel display by Western Motors Company. A one and one-half-ton and a two and one-half-ton model are mounted on pneumatic tires while a big, husky, four-ton Kissel truck has solid tire equipment.

Ford Dealers, Ford.

One of the most interesting commercial exhibits at the show is Henry Ford's tractor, equipped with rubber wheels for industrial purposes. A fitted tractor is shown while right along side of it is a cut-away tractor, disclosing every moving part of the machine. A Ford one-ton truck, with body, is also shown.

Vim Motor Truck Company, Vim.

The one-ton Vim truck model exhibited at the show certainly looks like it would live up to its name.

**BURT ROBERTS IS
THE BUSIEST MAN.**

HAS A THOUSAND THINGS TO
TEND TO AT SHOW, AND
DOES 'EM ALL WELL.

Burt Roberts, secretary of the Motor Car Dealers' Association and manager of the automobile show, which is declared the most successful motor event ever held in the West, has put in one terribly busy week.

Between arranging the various spaces, handling exhibitors, getting out passes, installing temporary headquarters for everyone, pleasing the angry visitor who can't find the man he wants and keeping the representatives of the press in a good humor it sure has been a busy time for Burt.

However, he has come through it all with a smile and when last seen in his office declared that everything was running smoothly and that the attendance figures reported by Assistant Manager Cooch more than justified the claims of the dealers' committee that this was the best-attended automobile event on record.

**WANT COACHES OF
THEIR OWN DESIGN.**

**DECIDED INTEREST DISPLAYED
IN CUSTOM CREATIONS OF
ALL SORTS.**

The marked interest displayed by those at the Auto Show in the custom-built bodies and the special jobs displayed by the different exhibitors themselves, show that the motoring public is insisting on having cars built to suit individualities.

"It is only natural," says Robert Thompson of Robert Thompson Company, "that the motoring public would react from the sameness of design that is so dominant in the motor cars, which are produced by factories that build in large quantities. The motoring public is resenting this sameness and are turning to custom-built jobs that reflect the character of the owner and incorporate the many conveniences so necessary to up-to-date travel."

TAKES HONORS OF FIRST SALE.

**Studebaker Salesmen Show
Speed With Dotted Lines.**

Interest in Closed Cars Remarkable, Says Hoffman.

**Public Demand Seems to be
for Genuine Comfort.**

Well, here it is! The first sale of the show! Bona fide, too!

The sale was made in the Studebaker exhibit, according to a report made to the show offices by Paul Hoffman. The car was one of the special Studebaker six show jobs, which has been one of the most interesting features of the attractive Studebaker exhibit.

A notable feature of the show, according to Hoffman, is the interest shown by the visiting public in the closed cars. Southern California is regarded generally as an open-car country, our even temperature and unrelenting sunny weather being more in favor of the outdoor touring than is the case in other parts of the country.

In the east especially is this opinion, strongest, where factory executives look for their big market for enclosed models in the land where the snow falls and the icy winter winds bring shivers even to the fabled motorists.

For some time past the increasing demand for enclosed cars has been noted by local distributors and this condition is even more noticeable at the show this year than at previous exhibits, according to Hoffman and other automobile men who make a careful study of the fluctuations of the public demand.

ENTHUSIASM IN AUTO DISPLAY.

(Continued from First Page.)

turned over to the gentle efforts of the custom builders and color experts. It is a deep brown affair, with individual steps and all kinds of fancy trimmings all over the place. From the size of the crowd that hangs around this Apperson it will have to be awarded one of the honor exhibits of the salon.

The Mitchell booth, near the Seventh-street entrance, is making thousands sit up and appear interested daily. Several special color jobs are a steady center of interest. George Franklin, who is now standing around on high-priced Turkish rugs instead of a damp cement floor, is feeling optimistic again and believes that the world is O.K. after all.

Any Stutz exhibit is calculated to be well patronized, but the display this year is more so than ever. The lines on the new Stutz are unusually attractive, and the roadster types are dividing interest with the new seven-passenger affair.

Open chassis are on display in many of the exhibits, but few give such a comprehensive idea of what makes the wheels go round as the Liberty show job. Very careful work at the factory is responsible for this splendid Liberty chassis. The C. W. McKelvey booth is crowded all the time and the touring and closed Liberty cars are running the chassis a close second.

Walter Lord, who has been in the East for some time, is again present in the Velle headquarters. Mr. Lord was connected with one of the large tractor factories, but couldn't stay away from California and feel contented.

The Velles are one of the popular attractions at the show. The record of being first to enter the Yosemite Valley for years in a row has won the Velle a host of admirers, who stand around and eyed the fancy cups and trophies that had been plucked off in various contests by the Lord Motor Car Company.

**Sedan is Only
Motor Car for
Lengthy Tours.**

M. C. Albertson, of the Albertson Motor Company, Dodge Brothers dealers, who with his family recently completed a two weeks tour of Southern California, is of the opinion that whoever named the open car a "touring car" certainly had the wrong idea.

"For ideal touring comfort the sedan is unquestionably superior to the open or so-called 'touring' car," said Mr. Albertson. "And I think that anyone who has toured in a sedan will never undertake a tour of any consequence in an open car. The drive along the coast to San Diego is beautiful, but a trifle windy in an open car, while in a sedan it is just as beautiful, and twice as comfortable. It is like touring in a movable sun parlor."

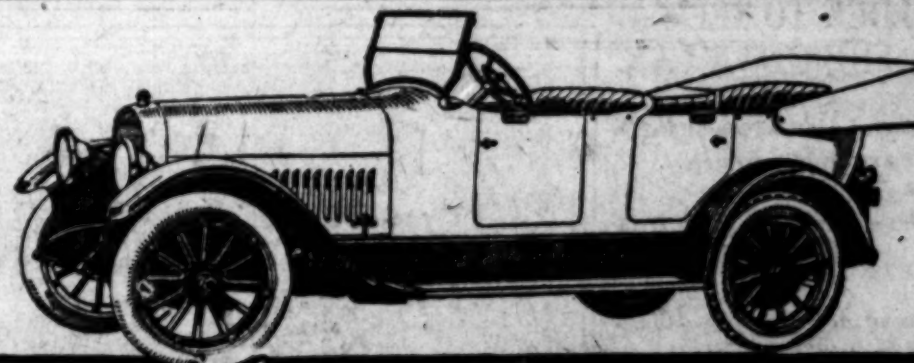

"The sedan has another decided advantage over the touring car in that it affords a much better opportunity to enjoy passing scenery. There is no uncomfortable craning of necks to escape the overhanging, view-obscuring top with which the open car is afflicted."

**E. W. MILBURN IS A
VISITOR AT AUTO SHOW**

E. W. Milburn, manager of the San Francisco house of the Green-Robbins Company, was a visitor at the show, making his headquarters at the local Hupmobile exhibit and helping out the local Hupmobile salesmen in elaborating on the good points of the "comfort car." He was the guest of F. H. Greer at a dinner given to members of the local organization at which Milburn and Burt Roberts, Coast factory representative for the Hupmobile were the guests of honor.

Billy Williams local sales director for the Hupmobile was much in evidence at the show and his cheery smile lent strength to the claim of the salesmen that the Hup is really a comfortable riding automobile.

FLOCK TO SEE SHERIDAN CAR.

General Motors' Latest Product Center of Interest.

Alexandria Lobby Filled With Motor Enthusiasts.

Ace of Aces Has One of the Best Days in Life.

By EDDIE RICKENBACKER.

Although I have been connected with many different enterprises in the past few years, nearly all of which brought me into close contact with the general public, from racing automobiles to flying airplanes and fighting Germans, I don't think that I have ever had the welcome and pleasant surprise that I have just experienced this week at the Hotel Alexandria.

I, of course, expected that a great many people would visit the exhibit of the new Sheridan car, which we are conducting there, but certainly have been overwhelmed with the enormous crowds that have been coming in all week. It has been a great pleasure to renew acquaintances with many of my old Los Angeles friends and also to meet many new folks.

The car was placed on the floor late Saturday night. Sunday, people learned of its presence, and by Sunday evening I had almost begun to regret my bargain. Sunday certainly was no day of rest for yours truly. I must have been the busiest man in Los Angeles that day, as I know I felt that night as if I had shaken hands with half of Los Angeles.

That all these people were not merely curiosity seekers was forcibly impressed on me when George Goodrum showed me five or six signed orders at the close of a perfect day.

The car will remain on display the remainder of the week, and a cordial welcome is extended to everyone to drop in.

The motor model is also on display at the headquarters of the Commercial Motor Company.

Double page birdseye map, the motor routes of Southern California. TIMES' MID-WINTER NUMBER, out January 1.

First Sheridan Owner in Southern California.

Frank Florio rushed into George Goodrum's headquarters about the day that the first Sheridan put in its appearance in Los Angeles and signed the dotted line for immediate delivery. He picks out the distinction of being the first Sheridan owner in the south. Florio announced that any car that was good enough to have Eddie Rickenbacker associated with it was good enough for him. That's why he bought.

Service Plan Explained by Map of State.

In the Auto Show exhibit of the Morland Motor Truck Company is an exceedingly novel and original way of calling attention to the highly developed service and parts organization of the company in California. In its factory, its Street factory branches and the numerous agencies and subsidiaries, the company maintains a constant supply of parts to the value of \$1,400,000. This fact is called to the attention

of the visitor to the show in a striking way by the use of an attractively painted large map of the State. This is framed and sits like a picture upon an easel. The various points where the parts and service may be obtained are indicated by alternately flashing lights of red, white and blue.

Another unique feature of the exhibit is a large parts board, upon which many of the parts which go into the make-up of the Morland truck are displayed. The regular parts are used to spell out the name of Morland with one of the truck's sectional radiators as a centerpiece and larger parts resting upon a platform built about the front and ends of the board.

LAFAYETTE MOTOR MAKES THEM LOOK.

STOCK CHANGES IS FEATURE OF TROY MOTOR SALES COMPANY'S EXHIBIT.

One of the first things that strikes the visitor's eye after being relieved of his ticket at the Figueroa-street entrance to the Auto Show is the exhibit of the Troy Motor Sales Company. This is where the new Lafayette car and the Nash models hold forth.

Unusual interest centers around the Lafayette chassis which is on display. Reversing common practice, the Lafayette chassis has been designed primarily to equip it for the demands of inclosed car service. How this has been accomplished is exemplified in such features as the deeply channelled frame, powerful brakes and running gear. The eight-cylinder V-type engine is remarkable for its

"TUFFY" PICKS CALIFORNIA.

(SPECIAL CORRESPONDENCE.)

REDLAND, Dec. 15.—"Tuffy" Conn, now professional football player but at one time the star of Pasadena High, has added his bit to the predictions as to the outcome of the Ohio State-California game at Pasadena on New Year's Day.

"Tuffy" has just come back from the East and to men on the train he said that California will win.

lack of complexity and fewness of parts.

How well the chassis is adapted to closed-car construction is shown in the seven-passenger Lafayette sedan on display.

COLOR SCHEME IS FEATURE OF SHOW.

SAXON AND COLUMBIA MODELS ARE MARVELS IN DECORATIVE EFFECTS.

Because of their nifty color schemes, the Saxon and Columbia models displayed by the J. V. Baldwin Motor Company at the Auto Show, are a source of unusual interest to the thousands who pour into the big Arnold building daily. A mechanical feature of the same exhibit, however, proves even more popular with the visitors.

This is the thermostat that automatically controls the radiator shut-

Texas Visitors Present at the Big Auto Show.

Among the out-of-town show visitors yesterday were Mr. and Mrs. Henry E. Elrod of Dallas, Tex., who drove to Los Angeles from the Lone Star State in a new Buick touring car. "It was so new, in fact," Elrod said, "that the speedometer showed only seven miles when we started. And we still think it is just as new, for it is just as good as when we started, despite some very bad roads."

The visitors were deeply interested in the show and expressed the thought that so many have had the week—that a city of the size of Los Angeles should have an immense auditorium in which to hold its annual events of this kind.

where one travels, Elrod said, this city stands for progressiveness. At the same time it is sadly lacking in one of the first essentials.

"We had a delightful trip," the Texan told Harold W. Tuttle, assistant general manager of the Howard Automobile Company of Los Angeles. "We drove from Dallas to Rancho Santa Anita, then to Pecos and El Paso, Lordsburg, Tucson, Phoenix, Buckeye and Palm Springs were the other high spots on our route."

SCORE CARD PLAN PROVES REAL HIT.

MARION BOOTH CROWDED WITH FANS ANXIOUS TO LEARN NEW SCHEME.

The Marion exhibit on the main floor of the Arnold Building and directly under the band stand has been the center of attraction in that part of the big automobile show, which is daily attracting thousands of motor-car admirers.

Presided over by Al G. Faulkner and E. E. Calster, vice-president and general manager of the A. G. Faulkner Company, the cars have been admired and enthused over by hundreds of the visitors to the show.

Out-of-town visitors, who have seen many of the biggest shows in the country, have paid the highest praise to the Marion exhibit, declaring that the selection of the models displayed, the colors in which they are finished and the excellent arrangement of the cars have never been equaled at an auto show.

Seldom has the interest been so keen in the various points of superiority of the motor cars and this interest in special performance features is declared by Calster to be due to the interest which the Marion scorecard has aroused.

REBUILT AND GUARANTEED

CADILLAC

Open and Closed Models

Regardless of price, there is no better buy in a motor car than a rebuilt Cadillac. It gives in appearance and a real Cadillac throughout—Cadillac reliability and years of pleasure and satisfaction.

This is the opportunity for the man who wishes to economize on first cost in obtaining the world's highest grade car. You will always feel proud to say you own a Cadillac and the longer you own the car the more enthusiastic you will become.

Only the owners of Cadillacs know the supreme motor joy. Doesn't the attitude of any Cadillac owner prove this?

FRANKLIN TALKS

By RALPH HAMLIN

Mr. Automobile Buyer: Every Auto Show makes a host of friends for the Franklin, because it emphasizes so plainly the common sense and the economy of Franklin construction.

At the Auto Show, folks compare the massive, clumsy construction of most water-cooled cars with the light, scientific design of the Franklin. They compare the huge tires which the water-cooled cars must use with the tires that the Franklin uses. They see the evidence that national averages show Franklin owners get 12,500 miles to a set of tires.

It all comes right down to this. An automobile is a piece of machinery for carrying people around. The lighter and simpler that piece of machinery is, the less it is going to cost to run it. People are interested in costs today.

True, folks want comfort, also, in the car that carries them. We'll defy anyone to find a car that rides more comfortably than does the Franklin. Light weight, economy AND comfort were the three things the Franklin was designed to give, and it does give all three.

The Auto Show gives you a splendid chance to compare Franklin design with that of others. As for the comfort the car gives, we'll demonstrate that over any road you like, against any car of any price or weight.

LINCOLNS DRAW RECORD CROWDS

All Interested in New Leland-Built Motor Cars.

Special Coach Work Attracts Favorable Comment.

Body Trimmings Imported from Across Pond.

The ninth annual Automobile Show has opened resplendent with original, artistic decorations and with distinctive motor-car creations. Thousands have already visited the huge display, worshipping their way through aisles of coupes, sedans, town cars and limousines.

One of the most unusual exhibitions at the show this year is that of the Walter M. Murphy Motors Company. This is the first show display of the new Leland-built Lincoln motor car. Grace, dignity, sturdiness and comfort are the outstanding features of this new addition to the realm of motordom.

Many persons of national prominence found the Lincoln display the most attractive of the show. Among those who visited the Lincoln exhibit on the opening night were Dustin Farnum and Ford Sterling, stars of the film world. Mr. and Mrs. Kirk Wolfelt, Mr. Jack Jevie and Dr. K. C. Buckley, a foremost writer and authority on dentistry.

Three creations of custom-built bodies, made by the Walter M. Murphy Company, coach, builders, of Pasadena and mounted on Lincoln chassis, drew immense crowds because of their artistic design, their aristocratic appearance and their superb workmanship.

The vase in the custom-built sedan was imported from Paris for this show exclusively. The upholstery for this same car was ordered from Paris to be used on one of the display cars for the New York show. Prompt action on the part of the buyers for the Murphy Company gained this magnificent fabric for use in this car, and the New York show car must be satisfied with domestic material.

CHASSIS AND SEDAN ATTRACT ATTENTION.

DORRIS EXHIBIT ADMITTED TO BE ONE OF BEST IN THE SHOW.

The Dorris chassis and the \$10,000 Dorris sedan, the latter a special job made for the show, are attracting unusual attention, according to A. J. Russell, Dorris distributors for Southern California and Arizona and members of his well organized sales force.

"I have been told time and again that the Dorris chassis is one of the finest pieces of mechanism on display at the show," declared Russell, who, if anything, is conservative. "The sedan, from one of the city's best known body builders and decorators, is running the chassis a close second. From the interest that is manifested and which has increased from day to day, we feel that the Dorris is receiving the attention that is no more than its due."

The sedan, with artillery wheels, individual steps and fenders and trunk rack, is painted dark green.

How the wildest river in the United States can be tamed and made to irrigate 2,000,000 acres. **TIMES' MIDWINTER NUMBER**, out January 1.

Real Reception is Handed the New Oldsmobile

The new models of the Oldsmobile four, shown for the first time at the Auto Show, have drawn crowds both afternoon and evening, and Manager L. V. Starr reports that the new car has demonstrated its phenomenal value by the wonderful reception accorded it by motorists who have visited the show.

In addition to the exhibit at the show there is a special showing of Oldsmobile models at the salesrooms where the salesmen show with pride the wonderful power and sturdy reliability of the new car in demonstrations that amuse and delight the motorists.

The reception accorded the new Oldsmobile four at the show is similar to that given it in all parts of the country wherever it has been put on display, according to word received here from the San Francisco establishment of J. W. Leavitt & Co. from Indianapolis, from Chicago and from other large eastern distributing points.

ACCESSORY BOOTHS TEACH A LESSON.

Going from one accessory exhibit to another at the Auto Show is like turning the pages of some good textbook. At each one a valuable lesson is learned, and, as there are about thirty different accessory exhibits there, the visitor should be pretty well versed in all the little things that spell motoring comfort and economy by the time he has inspected all of them.

Not the least of these little lessons is lubrication. Over in the Alemtite Lubricator Company of California's booth they can tell you, in fact, show you, everything there is to know about lubrication. The Alemtite high-pressure system of lubrication hardly needs any introduction for over half of the different makes of cars display at the show are standard equipped with the system.

SPORTSMEN HIKE TO BIG FISHING GROUNDS.

Quite a number of local sportsmen were leaving for Ventura and Santa Barbara counties yesterday to get a first whack at the opening of the steelhead trout season, declares P. E. Peterson of the Cline-Cline Company. The season opened yesterday morning in District 3, which includes Santa Barbara and Ventura counties. Steelhead fishing in Southern California each year attracts a great many anglers.

The romance and charm of Southern California's historical spots—pictures and text. **TIMES' MIDWINTER NUMBER**, out January 1.

ALL AGENCIES TO CO-OPERATE.

Construction Interests to Have Centralized Body.

Many Organizations Expected to Join Move.

Work of Board to Begin at an Early Date.

(BY A. P. NIGHT WIRE.)
NEW YORK, Dec. 15.—Co-ordination of all agencies interested in highway construction to avoid overlapping of efforts and provide a centralized body for research has been undertaken by the Engineering Foundation with headquarters in this city. Bureaus of the Federal government, various technical organizations and universities are expected to join the movement, it was announced here today.

An advisory board on highway research has been organized under the leadership of Prof. Allen M. Mason of the Engineering School of the Iowa State College which will work through the National Research Council. The various co-operating organizations and institutions will name members to this board. The result of the board's activities will be made available to highway builders throughout the country.

TO WORK SOON.
Work of the board, it is expected, will begin at an early date. Effort will be made to obtain from Congress a definite assignment of part of the unexpended balance of Federal aid road money to some agency which will administer the fund under direction of experts.

A statement issued by the foundation said that nearly \$1,000,000 annually is to be expended for highway research throughout the nation and that this money could be spent to better advantage following careful research by experts. Organizations, governmental agencies, and institutions which have assisted co-operation follow: American Association of State Highway Officials, American Society of Civil Engineers, Bureau of Public Roads, National Automobile Chamber of Commerce, American Society of Civil Engineers, American Institute of Consulting Engineers, American Society of Mechanical Engineers, Association of State Geologists, Western Society of Engineers, American Concrete Institute, American Automobile Association and the engineering departments of Harvard, Columbia, University of Maryland, University of Illinois and Iowa State College.

Facts Show How Motor Cars Are Getting Popular.

(SPECIAL CORRESPONDENCE.)
REDLANDS, Dec. 15.—George Larmore, City Marshal, and at the same time custodian of the records of automobiles in the city of Redlands, has been filling several tables with figures on the number of automobiles in Redlands and what costs to feed them and keep them going. Larmore figures that in the city and among the orange growers near by there are about 1500 machines. He figures the value of these machines to be not less than \$2,000,000 and he is inclined to think that perhaps this figure is too conservative.

Then he also estimates that these machines use on an average of close to 1000 gallons of gasoline every day. The gasoline bill for one day would be about \$100.

Mr. Larmore has no way of getting at definite figures as to the garage bills on these cars but he is inclined to think that \$20,000 a month would be a very low figure.

He figured on the mileage made by the cars and says that the Redlands machines travel about a million and a half miles each month around the world sixty times in thirty days.

Although the population of Redlands has increased during the past ten years it has not mounted in proportion to the increase in the number of automobiles in use.

WHITTIER TO OPEN BASKETBALL SEASON.

WHITTIER, Dec. 15.—The first national Whittier Savings Bank basketball team, composed of former Crescent and high school stars will open their season Wednesday night when they tackle the Los Angeles Y.M.C.A. quintet on the court. Manager Whittier has gathered together a formidable aggregation and if they display their old-time form the Quaker town boys will pour a lot of basket balls in the hoops.

The bank boys will line-up as follows: McKew and Nordstrom, forwards; Coulthurst, center; Wicker and Pelton, guards; McWhorter, substitute.

NEW YORK, Dec. 15.—LARRY Doyle, captain and second baseman of the New York National League club, will manage the Toronto club, in the new International League, it was announced today.

One of Al Faulkner's Prizes and Joys.

This luscious-looking creation is a twin sister of one of the fancy jobs that is knocking 'em dead in the Marmon exhibit. Large crowds clustered around the Marmon booth at the Auto Show have proved conclusively that this particular machine is a prime favorite with a host of people. The gentleman in the foreground is Roy Stewart, who incidentally owns the car.

MOTOR CAR SUPPLIES MAKE GOOD PRESENTS.

ALL KINDS OF ACCESSORIES MAKE A HIT WITH THE AVERAGE DRIVER.

"If you have the least doubt in mind about giving some friend a present for Christmas and you know he is a car owner, by all means give him a useful gift for his machine." This is the sound advice offered by A. A. Derry, manager of the Los Angeles Motor Supply House, Inc. Mr. Derry has dealt with motorists for many years and knows their tastes and requirements, perhaps, as well as no better than any automobile accessory man in town.

"By so doing you will win his gratitude by giving him, perhaps, just the accessory which he long has wanted. It stands to reason that any motorist has usually one or two things that he needs. If you knew a man were a coin collector, for example, could you please him better than by giving him some rare coin, and exactly the same thing applies to all motorists, who, in the main, have a decided hobby in their automobile."

QUITE A CHANGE IN A VERY FEW YEARS.

BACK-BREAKING CRANKING GIVES WAY TO MODERN ELECTRIC STARTER.

Why is a battery? Men's minds run backward only a few years to the time when oil and acetylene supplied the lights and when he turned himself inside out in an endeavor to crank his car on a cold morning. This was particularly true in the blizzard-swept East, and on mornings when he wasn't sure but that his radiator was a solid lump of ice.

Now what happens? The crank has given place to the new little box which incloses a few pounds of zinc and lead and in acid solution. The old lamp has been replaced by the electric bulb and fireless lens. Instead of breaking his back cranking his car, he simply presses a button and the battery does the rest.

Now, this is a little reminiscence and line of talk which H. A. Rose, battery expert of the Western Electric Company, Titan battery distributors, gave utterance to while talking with one of the visiting dealers in discussing the present day efficient battery compared to "ye good olde" days when a man had to be a husky to crank his own car.

SPORTS AT HARVARD ARE RUN AT A LOSS.

(BY A. P. NIGHT WIRE.)
CAMBRIDGE (Mass.) Dec. 15.—The report of the graduate treasurer of athletics of Harvard University for the college year, from September, 1919, to June, 1920, made public today, shows a loss of \$6343.44 in sports at Harvard. The total expenditures were \$174,878.28 and the receipts \$168,534.84. Football of 1919, which made \$74,281 net expense and baseball this year which made \$12,486, were the only sports on the profit side of the ledger.

The receipts of the football team of 1919 were \$118,129.41 and its expenses \$40,847.31, which included the trip to Pasadena, Cal. Baseball showed receipts of \$21,086.73 and expense of \$12,218.97.

Rowing, track and hockey all showed deficits. In rowing the receipts were \$6291.46, expenditures \$22,859.19; track receipts \$2531.99; expenditures \$12,210.66; hockey, receipts \$185; expenditures \$427.44.

TORONTO GETS DOYLE.

NEW YORK, Dec. 15.—LARRY Doyle, captain and second baseman of the New York National League club, will manage the Toronto club, in the new International League, it was announced today.

READJUST STEEL WAGES.

Independents Plan Action to Compete for Business and Keep Plants Open.

(BY A. P. NIGHT WIRE.)
PHILADELPHIA, Dec. 15.—It was learned today that independent steel companies, in an effort to compete for orders with the United States Steel Corporation, are planning to readjust wages about January 1 to keep their plants in operation. No official announcement has been made, but it is understood the movement is general among independents.

ARIZONA MINES AFFECTED.
(SPECIAL CORRESPONDENCE.)
NEW YORK, Dec. 15.—A reduction of \$1 a day in the wages of the higher-priced miners at the Phelps-Dodge Corporation's mines in Arizona, will become effective January 1, an official of the corporation announced here today.

Mexican miners, who receive smaller pay, will be affected by corresponding reductions, he added. It is reported in financial circles that other copper companies were to make similar reductions in existing wage scales.

WILL AFFECT 90,000.
(SPECIAL CORRESPONDENCE.)
PHOENIX (Ariz.) Dec. 15.—About 4000 men in the Bisbee and Warren districts, and at Douglas, Ariz., are reported to be affected by wage reductions announced by the Phelps-Dodge Corporation, the Calumet and Arizona Mining Company, and small operators. Similar reductions have been announced by companies in the Globe-Miami district and at Jerome.

LIFT EXPORT DUTY.
(BY A. P. NIGHT WIRE.)
DOUGLAS (Ariz.) Dec. 15.—Announcement was made this afternoon at the Mexican customhouse in Arizona, that the United States Customs Service has received from Mexico City to lift export duties on all copper ore passing from Mexico into the United States until the price of copper on the New York market is above 15 cents.

According to information received here tonight from Cananea, Son, the Cananea Consolidated Copper Company will not alter its determination to close down January 15, although the Mexican government has lifted the export duty on copper to enable Mexican producers to better meet competition.

The Amalgamated Leather Companies, Inc., announced it had passed its quarterly dividend of 1.5 percent on preferred stock due January 1. The company has paid quarterly dividends on this issue for one year.

Directors of the Keystone Oil Company today decided to pass the quarterly dividend of 3 percent due at this time.

Directors of the Willis-Overland Company today announced their regular quarterly dividend of 1.5 percent on preferred stock would be passed.

FERRY STRIKE IS LOOMING.

San Francisco Bay Workers Threaten to Tie Up All Traffic.

(BY A. P. DAY WIRE.)
SAN FRANCISCO, Dec. 15.—Announcement that they will tie up by a strike all ferry boats on San Francisco Bay, exclusive of river boats, within twenty-four hours from Friday noon, unless their wage-increase demands are met, was made by the local organizations of the ferry-boat workers here today. The organizations are the Ferry Boatmen's Union, the Marine Engineers' Benefit Association and the Marine and Fishery Association.

A statement issued by the Ferry Boatmen's Union said:

"We have not been allowed to participate in the recent 20 percent passenger and 25 percent freight increase granted the railroads, although these increases were due to wage demands. We have given the companies until Friday noon to answer, and if a negative reply is received, we will tie up the boats within twenty-four hours thereafter. We are willing to meet with the companies or with any mediator or set of mediators to settle this dispute, as we emphatically do not want to go on strike."

The Southern Pacific and Northwestern Pacific railroads, in published statements, said that the demands of the men had been fully considered by the Railroad Labor Board and that even at the advanced rates the transbay ferry services were being operated at a loss.

A strike would affect at least 50,000 commuters and thousands of automobilists using the ferries daily.

PAID TAX ON WHISKY.

Dunnigan, Clerk of Bay City Board of Supervisors, Involved in Liquor Case.

(BY A. P. NIGHT WIRE.)
SAN FRANCISCO, Dec. 15.—The internal revenue tax on fifty-one barrels of liquor, which, according to testimony yesterday by Harry Broilaski, was withdrawn from bond for Democratic National Convention entertainment purposes, was paid by John S. Dunnigan, clerk of the Board of Supervisors of the city and county of San Francisco, Charles Youngberg testified today in Broilaski's trial on a liquor conspiracy charge.

Youngberg is a customs broker. He said he had the permits in his office but did not know whether city money was used in payment of the tax. Broilaski testified yesterday that Youngberg had shown him the permits but Youngberg denied this today.

The prosecution put on Youngberg as a rebuttal witness after the defense had closed its case. Defense testimony was given by two handwriting experts in favor of Jules Gange, co-defendant in the case with Broilaski and Douglas Newton.

Broilaski was cross-questioned again today by the government in regard to alleged telephone conversations between himself and Ray Groves, former secretary of the Democratic State Central Committee, regarding disposition of the effects of Lorrin Handley, former prohibition director of California, the night Handley was killed in an automobile accident near Lodi. Broilaski denied having told Groves to seize Handley's keys and papers.

Conclusion of testimony in the case is expected tomorrow.

TRUCK STORY IS WONDERFUL.

Development of the Industry is Spectacular

Ten-Year-Old Products Still Rambling Along.

More and More Parts Built on the Coast.

While not so spectacular as much in the glare of the spotlight as the airplane, the development of the motor truck and the whole trucking industry in the last decade has been fully as marvelous. In the early days trucks were a sort of side issue. Passenger-car chassis and general construction was followed in a conversion to truck uses. Then came the realization of the actual importance of trucks in the future of all classes of transportation efficiency, and manufacturers bent their energies to making real trucks for truck work.

IN A TIN SHACK.
It was at that time that the Moreland truck was born in a little tin shack in Los Angeles. It was ten years ago this month. It is a far cry from those first trucks and the crude facilities for manufacture of the high standard of perfection of the present products, issuing from the modern \$2,000,000 plant of the company in Burbank—yet those first were good trucks and still running on their jobs.

The first three trucks produced were of three-ton capacity and were delivered to the Southern California Hardware Company, H. Raphael and Haas Henschel of Los Angeles. They were chain driven, had the driver's seat over the motor, the old clutch, wood wheels, jack-shaft suspension, old-time universal, three-speed transmission and other features which then were considered the latest type of construction, but which now are considered but memories of the struggling past.

WITH GASIFIER.
These trucks were equipped, as have been all made since, with the patented Moreland gasifier, and in this they gave evidence of the advanced ideas which have carried them to the forefront. As the years have gone by the chain drive has been replaced by the worm drive, believed to be the highest type of rear-end drive yet conceived, with the four-speed transmission and other results of advanced engineering design and construction.

In those early days the great majority of the parts going into the construction of the truck were purchased in the East. It has been the belief of the company that in

time it could demonstrate that truck manufacture could be as well carried on on the Pacific Coast as anywhere in the country. Gradually more and more of the supplies have been bought here and more and more of the parts actually manufactured here, until today over 50 per cent of the entire truck is made right in the Burbank plant, while over 40 per cent of the supplies are locally purchased. This means that practically every important feature, except the accessories, are made in this plant from the crude material.

ENORMOUS GROWTH.
From a few trucks sold locally the sales of Morelands have been carried throughout the western States and to seventeen foreign countries bordering on the Pacific. The fame of California products has been spread far and wide and millions of dollars have been brought into the West to aid in the increase of local wealth. Small industries have been nursed along and, attracted by this company's success, many new industries have been led to come to the Coast.

Along with this the company has continuously lent its aid in every movement for the development of the highways and transportation. It has a firm belief in the future of this

DIGSKIN EXPERT TELLS HOW HE SELECTED TEAM.

Two Players from the Pacific Coast on Walter Camp's All-American Football Squad.

[BY A. P. NIGHT WIRE]

NEW YORK, Dec. 15.—Eastern college football players still form the backbone of the All-American team selected by Walter Camp for the season of 1920. In his selections, announced in the current issue of Collier's Weekly, the veteran football expert names thirty-three players grouped in a team of three and three.

Of this number twenty-one are named from eastern colleges and universities, seven from midwestern institutions, three from southern colleges and two from Pacific Coast universities.

CAREFUL OUTLINE.
In his introduction Mr. Camp gives an outline of the necessary requisites for a player who measures up to an All-American standard, citing Stanley Keck, the Princeton tackle, as an example. His article is part as follows:

"The All-American team of 1920 represents a far greater breadth of ability on the part of every one of its members than any team ever before selected. The startling development of the game has put additional requirements on each individual position, and this condition has reached a limit today undreamed of by the general rank and file, and only appreciated by the coaches and experts throughout the country. Perhaps it is only fair to give some idea of this, so that the average layman may understand what it means to be an All-American man today.

Taking an individual man in position as an example of this, there is no better illustration than Stanley Keck, the Princeton tackle. Here was a tackle who, in his first two big games, showed the following qualifications. In the first place, he had the usual earmarks of a strong player in the position, namely, ability to handle himself well to break through, to tackle, to lead a line back or a play that went between the tackle and guard, to aid an end, and sometimes to beat him in getting down the field under kicks.

"Then, in addition, Keck hurled the forward passer as well as the kicker; he was a long-distance placement kicker, a goal kicker of accuracy, and finally, with one or two comparatively light men in his back field, he helped bear their burdens in a measure where they were forced to come up against a tight and power. One added element was that of shiftness, his ability to move on defense from one side of the line to the other according as unbalanced lines required greater power to meet the charge. He met the Harvard charges, he shifted to meet formation plays, he broke through and hurried the passer and the kicker, and finally brought about a touchdown by blocking the Harvard punt. In the Yale game he did all these things, with the exception of blocking a punt, and in addition scored one field goal from placement, hit the bomber with another, and acted as an interferer for Laurie's run for a touchdown around the end.

"This is a typical illustration of the possibilities of a single position under the modern game.

HARD STRUGGLE.
"From this it is easy to see that few indeed of the positions on the All-American team this year were made without a struggle. But in spite of the fact that competition for almost every position was keen up to the end of the season, it has been possible to reach a final and conclusive decision.

"Carney and Fincher receive the end positions for the proper balance of the team. Carney's play all season has been practically errorless and has been a great asset to his team. He is fast, strong and well built, a superb handler of the forward pass and a star end down the field. He is hard to circle, fights interference well, and has no one outside him.

"The end goes to Fincher, whose original position and whose schooling has been that of an end, although he is being used at tackle by Georgia Tech this year. He has always been one of the fastest of rangy ends, and this year we need him especially for his power, long reach and general build, which is of the kind that occupies a great deal of space from one line up to the other, and who can be used, not only on the defense, but with great power on the attack, as he is quite big enough to handle a tackle. His reach is also an asset in forward passes, as well as in breaking them up.

TACKLE POSITION.
"As to the tackle position, the qualifications have already been specifically stated. Scott of Wisconsin gets the other tackle on account of his past activity, coupled with his strength and power. It is seldom that a man of his physique is as quick on his feet, a quality which aids him much on defense, while enabling him to displace his opponent on attack. Sedick of Harvard showed the same qualities, but was unfortunately laid up so much as to be out of condition for playing a full game.

"At guard, Callahan of Yale, is the best defensive lineman on any team this year. He is quick as a cat, for all his weight, and particularly brilliant in staving off the break in the line and getting to it by the time the runner reaches it. A bad shoulder forced him into the position of guard on account of his inability to pass the ball, but that has not in the least interfered with his work as a guard. Woods of Harvard was in a class by himself for power, aggressiveness, and ability to distance plays. His huge frame is impregnable to line forcing, and he is wonderfully active for such a big man.

VERY CLOSE.
"At center it was for a time a very close thing between Stein of Pittsburgh and Cunningham of Dartmouth. Stein has come through just a little more successfully than Cunningham. Not that this casts any reflection upon the latter, but it must be remembered that Dartmouth suffered at the hands of both Syracuse and Penn State, whereas Pittsburgh, in spite of some close calls, has come through, and Stein has really been the keystone of the line and has kept it together when things were disintegrating. He passes particularly well and is thoroughly satisfactory in all the requirements of this not exceedingly difficult job. A good deal of the passing now is direct passing, and that requires even greater regularity than passing through the quarterback. Stein is exceptionally good at this from his long experience under the Glenn Warner system.

"The quarterback position goes, after much consideration, to Laurie of Princeton, because, as a climber,

to the rest of his work, his generalship, not only in former games but in his final contest for the season, that with Yale, was almost unerring in its accuracy in disclosing every weak point of his opponents. In all other points, McMillin and Boynton were quite on par with him. In fact, McMillin upheld in a high degree the wonderful reputation he made last year, and both he and Boynton are exceptional assets to any team.

GIFF GETS BERTH.
"In the backfield, Gipp of Notre Dame gets the first place on account of his versatility and power, able as he was to punt, drop-kick, forward-pass, run, tackle—in fact, do anything that any backfield man could ever be required to do, and do it in a well-nigh superlative fashion. He drop-kicked on his freshman team sixty-two yards. When a man who has been taken off with a badly injured shoulder can go in on a pinch and carry the ball over the goal line to get his team an absolutely necessary touchdown, something of the man's power can well be understood.

"Way of Penn State gets the next place, not only for speed, elusiveness, and quick shiftness of opportunity, but also because he could always be relied upon when held on the side line to go in at any time when things were menacing to his team and make the necessary gains against any opposition. A most essential back, far more than any of the others, he still has plenty of power for straight-line running and off-tackle plays. Stinchcomb of Ohio State, who completes the trio, is the fastest man down under a forward pass on the ground today. His speed, together with the passing of Workman, pulled his team out of a hole in the Wisconsin game.

"The last minute of play, and he has repeated this on other occasions. Had Stinchcomb been an ordinary man, although fairly fast, he would not have been able to get away with these plays nor the defense was prepared for them, saw them coming, and yet was deceived in both cases on account of this peculiar burst of speed which Stinchcomb is able to put on.

ALL-AROUND CLASS.
"We thus put in that remarkable little general's hands, Laurie, all the weapons of an attack that we can possibly give him by the use of Way, Stinchcomb and Gipp. We put in front of him a line of supreme power, a line on which we can count up three remarkable men for getting down the field under the forward pass: Carney and Keck—men in Keck and Scott who are able to hurry any punter, and very likely block a man in Callahan and Keck who can alternate in roving defense; a tackle in Scott who can not only smash the interference, but who is quick enough to seize the runner; and in Stein, a steady passer who feeds the ball well to his backs at all times.

"The stiffness of this line on defense—its speed to hurry forward passers, and its power to open holes and drive the opposition back on offense—is exceptionally high, class, and opposing tackles who were menaced by Fincher and Carney at the time they were trying to get through at the runner would find their hands tied. As a matter of fact, with this line there would be very little tackling left for the secondary defense, and in that way it would be kept fresh at all times.

"With Laurie and Gipp throwing forward passes, Stinchcomb and Way receiving them, a defense of the opponents would be well put to it to offer a tight resistance, and with this line opening holes and driving the opposing line back for these backs, the secondary defense of the opponents would have to come up at times. And a great asset in its own defense to the most dangerous menace of modern football, the forward pass, is that all these backfield men are of the keen-witted type that diagnoses the direction and can cover up quickly. On the whole, it is one of the best teams on attack and stiffest on defense that has ever been put together."

H.C.S. EXHIBITION
KNOCKS 'EM COLD.
CARS FAIRLY BECKON TO
CROWD THAT THROWS
THE AUTO SHOW.

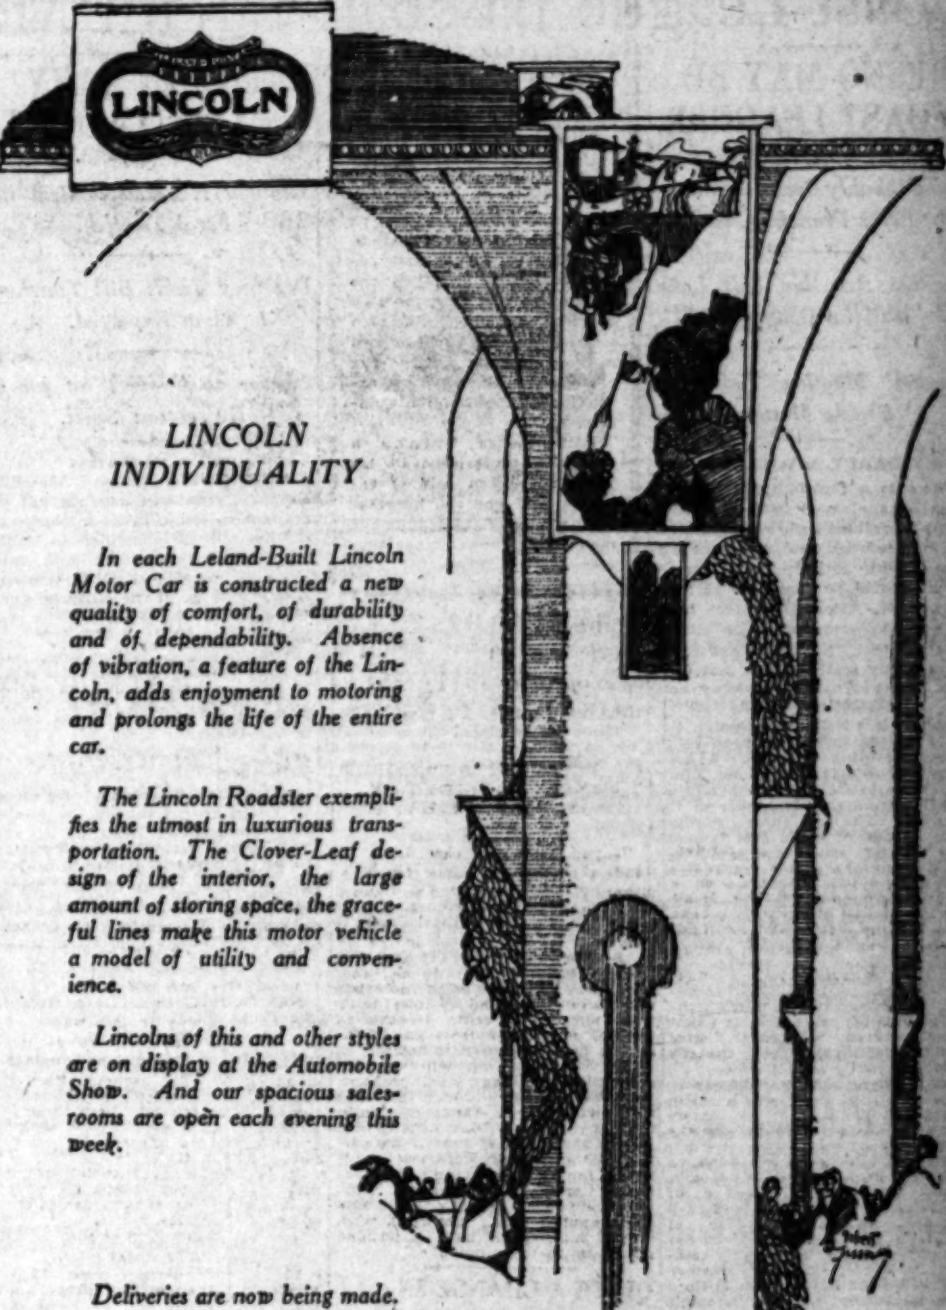

The Follies have no more claim to the popularity championship for attractiveness than a snake has hips, judging from the number of cooing onlookers that swarmed like bees around the H.C.S. exhibit at the Auto Show. The cars fairly beckon to the visitors at the show. They have that come-on look. It is a matter of fact, with this line there would be very little tackling left for the secondary defense, and in that way it would be kept fresh at all times.

"You'll have to hand it to the show committee, said Harry Hornum, "They did some real work. I'll bet that none of them have attended to any of their own business since the plane were first laid for the exhibit. Everything has gone on like clockwork and a good crowd has shown up all the time."

"And I see in this good crowd, the forerunner of good times, like we all had last year. Just as soon as the people get to talking cars then they begin to buy them."

MOTOBOATS TO TRY FOR FAMOUS TROPHY.

[BY A. P. NIGHT WIRE]
NEW YORK, Dec. 15.—The Harmsworth trophy, emblematic of the world's motor boat championship, will be defended on Lake St. Clair, near Detroit, next summer. If England and other European countries submit a suitable challenge, it was announced here today. Gar Wood, owner of Miss America, which brought back the trophy from Great Britain this year, intends to build an even faster boat.

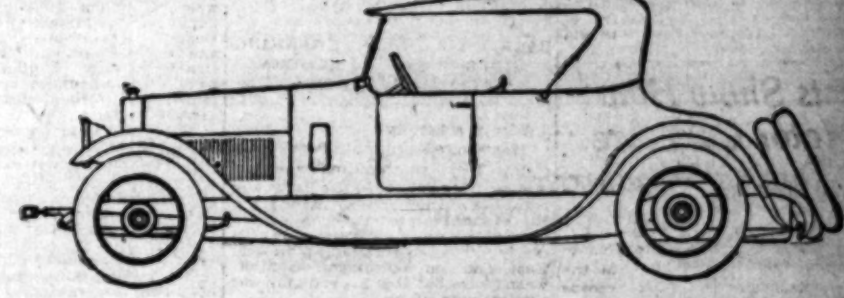

LINCOLN INDIVIDUALITY

In each Leland-Built Lincoln Motor Car is constructed a new quality of comfort, of durability and of dependability. Absence of vibration, a feature of the Lincoln, adds enjoyment to motoring and prolongs the life of the entire car.

The Lincoln Roadster exemplifies the utmost in luxurious transportation. The Clover-Leaf design of the interior, the large amount of storing space, the graceful lines make this motor vehicle a model of utility and convenience.

Lincolns of this and other styles are on display at the Automobile Show. And our spacious salesrooms are open each evening this week.

Deliveries are now being made.

CROSS-COUNTRY TEAM ON OCEAN.

Cornell Runners Set Sail for Merry England.

To Meet Oxford and Cambridge on December 27.

Dash Will Be Over Seven and Half-Mile Course.

(BY A. P. NIGHT WIRE.)

NEW YORK, Dec. 15.—The first foreign invasion of an American college cross-country team started yesterday with the sailing of the Cornell University runners for England, where they will meet Oxford and Cambridge universities on December 27 in the first international cross-country contest of this type ever staged.

The run will be held over the seven-and-a-half mile course of the Thames Hare and Hounds Club at Richmond, near London, and the Cornell and Oxford-Cambridge teams represent teams of seven runners. Of the four teams, Cornell and Cambridge are the first five of each team to finish the race. The total time of the race will be declared the winner.

The Cornell team, which will start teams of seven runners. Of the four teams, Cornell and Cambridge are the first five of each team to finish the race. The total time of the race will be declared the winner.

Report on Standard's Balsa Chica Well at Huntington Beach

—by Wm. E. Stephens.

I visited and examined this well position on the 15th day of November, 1920, in the company of S. W. Beatty, F. L. Van Dine and W. H. Stephens.

This was made when the well was capped, and, therefore, the production unknown.

My trip to this well was on a very unfavorable position and the most difficult one I have ever tested to arrive at a very clear conclusion as to the outcome.

The well is very near the oil streak, but only touches it at an angle, and even at that point I doubt whether the main streak is actually on the site by a few feet; however, near enough to give a good feeder to the site. I was unable, at the time, to get the actual depth of the well.

The depth of the well is about 200 feet and carries, by my test, a moderate strength. The outcome, therefore, depends on the carrying capacity of the formation between the main streak and the actual well.

I classify this well, I would say it has possibilities of being a small producer and will doubtless come in with a very production; but, because of the conditions mentioned, the production will only be short lived.

Only this report to those who are interested and closely watch the results of my work, and who would not be too exacting. In view of the extremely difficult and most unusual position of this well, a position which I should never think of staking on.

(Signed) WILLIAM E. STEPHENS.

CLAYD LAWRENCE
WM. N. YARROW.

NOTE—My investigation of this oil streak shows that Standard No. (3) is in a very much better location than Balsa Chica No. (1) and that it will be a good producer, while Standard's existing well No. (4), located about 1500 feet east, is off the streak and will not produce oil in pay quantities, with the possibility that it may be entirely dry. Keep this statement for your reference as to the reliability of my tests.

MIDDLE WEST NEWS IN BRIEF.

(EXCLUSIVE DISPATCH.)

INDIANAPOLIS, Dec. 15.—An appropriation of \$300,000 a year will be asked of the Legislature to pay Indiana's part in the expense of organizing and maintaining the new National Guard and in maintaining the office of the adjutant-general. Adjt.-Gen. Smith announces.

Ralph Spahn, the present deputy prosecutor in city court, will be replaced by J. Burdette Little, William P. Evans, prosecutor-elect, announces. Little's name was included in a list of appointments effective when Mr. Evans takes office January 1.

KANSAS CITY, Dec. 15.—The ordinance providing for the extension of Ward Parkway from Maywood boulevard south to Seventy-fifth street has been passed in the lower house of the council and referred to the public improvements committee of the upper house, for hearing. Four hundred and eighty signatures were enlisted in the Army in the Kansas City recruiting district last month, surpassing all previous time records for recruiting here.

ST. PAUL, Dec. 15.—St. Paul citizens now pay 11 per thousand for gas. The increased rate granted by the City Council, went into effect today and continues until June 15, next.

Three representatives of the National Dairy Association are here inspecting the State fairgrounds to ascertain if they are adequate for the 1921 annual show of the association. Hereafter the show has been held in Chicago.

MILWAUKEE, Dec. 15.—Miss Ellen Sablin, for twenty-eight years president of the Milwaukee Downstate College, the State's leading women's college, has resigned, effective next June. She is 70 years old.

William C. Carroll, prominent attorney, is dead following a slight operation on his nose. He was the senior member of the firm of Carroll & Carroll.

Five Aldermen will be named to hear the charges preferred against Mrs. Christina Thomas of 1351 Grant street is dead as the result of a fall six months ago.

DENVER, Dec. 15.—Marion Crispin, 17, daughter of Mr. and Mrs. C. A. Patrie, wealthy citizens of Lockland, is dead at St. Luke's hospital following an operation for blood poisoning. An investigation will be made of reports of a previous internal operation.

Dennis Humphreys (a negro), was sentenced yesterday by Judge Hollenbeck to life imprisonment for the murder of Mrs. Gusie Watson in 1917.

MILWAUKEE, Dec. 15.—The Common Council refused to rescind its action ordering the widening to 100 feet of Michigan avenue from Livernois avenue to the city limits. Merchants protested that the widening should be made from Martin avenue to avoid destruction of valuable business buildings.

Permit to lay tracks on the North Branch of the city limits has been granted the Detroit United Railways on the day-to-day rental plan.

The Thurgood Hotel erected at a cost of \$2,500,000 was officially opened today.

MINNEAPOLIS, Dec. 15.—Percy Baines, 18 years old, today play for James A. Borte, yesterday was sentenced to life imprisonment at Stillwater. He is married; has a son, Donald Baines, who aided in the hold-up, received from seven to thirty years. He is twenty years old.

The first row of the season fell here yesterday putting an end to the warm weather.

If the contentions of Dr. Milo R. Malthe, public utility expert, are sustained Minneapolis will have to pay an increase of 12 cents per 1000 cubic feet instead of 18 cents as required by the gas company. The company asked for a rate of \$1.32 a thousand.

Linked with the Business Life of Los Angeles

The First National Bank 1914

The First National Bank 1920

The Fletcher Ford Printing Plant

for Twenty-six Years

THE business expansion of the FLETCHER FORD COMPANY has been interwoven with the history of Los Angeles for twenty-six long years. Many of the pioneer business institutions of our city have for more than a quarter of a century trusted their printing problems and needs with us—and we are keenly proud of the fact that we have served them.

When Los Angeles was scarcely more than a village, the FIRST NATIONAL BANK occupied quarters on North Main Street opposite the site of the present Federal Building. Then, as now, the FLETCHER FORD COMPANY was serving this institution which has become a financial giant.

Such continuity in service is indicative of eminently satisfactory work.

We feel that our facilities for rendering prompt, efficient printing service are second to none, for the installation of strictly modern labor saving machinery has more than kept pace with the growth of this community. We solicit the opportunity to acquaint you with our organization.

When may one of our representatives call?

ANNOUNCEMENT

The effectiveness of our organization has been further increased by the establishment of an Advertising and Dealers' Service Department in charge of

Mr. Charles M. Veazey

Mr. Veazey's active work with the largest business concerns of Chicago and New York territory enables him to render valuable assistance to Sales and Advertising Managers wishing to more effectively promote their sales.

A conference is invited.

Bride Spilled from Taxi Wins Suit.

Mrs. Laura Bauer Speers.

DALLAS SPEERS and his bride, Laura Bauer Speers, laughingly ran down the steps of her home, 2202 Fair Oaks avenue, Pasadena, June 12, 1919, as their friends showered them with rice. The happily couple hurried around the corner of the house to the curb, where they expected to find a taxicab they had ordered. The friends followed, bent on decorating the taxicab.

he had ordered and quickly engaged another. They entered and were whirled away. Five minutes later Mrs. Speers was picked up from the street, where she had been thrown when the taxicab was driven against the curb and overturned. She was much cut and bruised. Yesterday she was in Judge Myer's court seeking \$10,000 damages from the Los Angeles Athletic Club Taxicab Company for her injuries.

Mrs. Speers was awarded \$5000 damages.

6th & Main Streets, Los Angeles.

As a suggestion of a most attractive Christmas remembrance we offer a piece or a suite of this Catalina furniture. Artistic and useful souvenirs of the Magic Isle. It embodies the best of workmanship and is priced very low.

Are You Suspicious of Your Health?

One may not be actually sick, yet feel so tired and languid, low-spirited and ambitious, that he can not truthfully say he is in good health. The kidneys work all the time, night and day, and it is no wonder that they become weak, sore or diseased. Nearly everybody suffers from kidney trouble or bladder ailments. Nature gives warning signals by backache, lameness, stiff joints, sore muscles, rheumatic pains, puffiness under the eyes and blurred vision.

RELIEVED HIS BACKACHE

It gives me great pleasure to recommend Foley Kidney Pills as in my case they relieved me of a severe backache that had bothered me for several months. A few bottles freed me up in good shape. W. W. WALK, 721 S. Jackson St., Green Day, Wis.

FOLEY KIDNEY PILLS

Give quick and permanent relief from kidney or bladder troubles that have not reached a chronic or bad stage. They stop bladder irregularities, strengthen the kidneys and tone up the liver. When the kidneys are properly functioning, they filter and cast out from the blood the impurities that cause such ailments and in the end may lead to serious illness. If you have any cause to suspect that your kidneys need help, you will make no mistake in taking Foley Kidney Pills.

ASTHMA

and Bronchitis are needless and can be quickly ended BY ANY CLIMATE. Remlock 1st gives incomparable results. See demonstrator daily, 11 to 2 p.m., Neeson's Drug Store, 414 and Hill St. Write Remlock Hills Laboratory, 604 South Hill St., Los Angeles, Cal.

WHY NOT RELIEVE THAT COLD NOW?

Dr. Bell's Pine-Tar-Honey is noted for its effectiveness.

YOU'LL find the small cost of a generous bottle of Dr. Bell's Pine-Tar-Honey a sum well spent when you learn how promptly and efficiently and comfortably it helps relieve that lingering or new cold or cough.

Its balsamic and healing antiseptics are unsurpassed in promoting ease from distressed bronchial tubes, helping to loosen phlegm, congestion, and allaying inflammation. Children, too, like its pleasantness. Thousands everywhere use it the minute they feel a cold coming on. Get a bottle at your druggist's to-day as a safeguard against sudden colds. 25c., 50c., \$1.25.

Dr. Bell's Pine-Tar-Honey for Coughs and Colds

Don't suffer from upper-respiratory ailments. You can relieve them by using Dr. Bell's Pine-Tar-Honey. It is a natural, pure, and effective remedy for colds, coughs, and other ailments. See demonstrator daily, 11 to 2 p.m., Neeson's Drug Store, 414 and Hill St. Write Remlock Hills Laboratory, 604 South Hill St., Los Angeles, Cal.

Dr. Hobson's Eczema Ointment

See demonstrator daily, 11 to 2 p.m., Neeson's Drug Store, 414 and Hill St. Write Remlock Hills Laboratory, 604 South Hill St., Los Angeles, Cal.

Ped Cars at Barker Bros.

734 to 735 South Broadway

IT TAKES strong, sturdy little legs to get speed on one of these Ped-L-Cars, and if Bobby hasn't got them he will acquire them.

There is so much fun in learning how to master a Ped-L-Car that your little boy will stay at it till he knows just how to control it. They are very simple, but you have to know how, as Bobby says, and, too, he says there is not a better Christmas present anywhere than a Ped-L-Car.

Mother, bring the children to see these Ped-L-Cars. Class and Trunklin (hours 10 to 12 and 3 to 6:30) and be sure to see the Cary Books.
